

in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, Phlx must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, Phlx believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In this instance, Phlx is introducing a new pricing programs [sic] to accompany changes to PSX's market structure. These changes were necessitated by the failure of PSX's former price/size execution algorithm to garner significant market share, and therefore reflect an effort to increase PSX's competitiveness. If the changes are unattractive to market participants, it is likely that PSX will fail to increase its share of executions. Conversely, because the proposed changes introduce new pricing incentive programs and reflect overall reductions in fees, if they are successful in attracting additional order flow, they will reduce costs to market participants and possibly encourage competitive responses from other trading venues. Accordingly, Phlx believes that the proposed changes will promote greater competition, but will not impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

Phlx further believes that the process for selection of LMMs does not burden competition. Although only one market maker may serve as the LMM for a particular Qualified Security at a given time, LMMs will be assigned on the basis of a competitive bidding process that relies on objective criteria. The process for challenging incumbent LMMs and reassigning Qualified Securities for which an LMM is not achieving the program's requirements will provide further opportunities for competition among market makers to receive designations under the program. Moreover, depending on the outcome of the bidding process, assignments of Qualified Securities may spread across a range of market makers, so as to allow the financial benefits of the program to be dispersed among those market makers that are willing and able to

achieve the goals of the program. Thus, the Exchange believes that the program will enhance competition among market makers.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-69607; File No. SR-BX-2013-029]

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Order Approving Proposed Rule Change Relating to Board of Director Qualifications

May 20, 2013.

On March 27, 2013, NASDAQ OMX BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹ and Rule 19b-4 thereunder,² a proposed rule change to amend Article IV, Section 4.3 of the Exchange's By-Laws ("BX By-Laws") with respect to the composition of the Exchange's Board of Directors ("BX Board").³ The proposed rule change was published for comment in the **Federal Register** on April 8, 2013.⁴ The Commission received no comments on the proposal.

After careful review, the Commission finds that the proposed rule change is

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

consistent with the requirements of the Act and the rules and regulations thereunder applicable to a national securities exchange⁵ and, in particular, the requirements of Sections 6(b)(3)⁶ and 6(b)(5) of the Act.⁷ The proposal will reduce from three to one the minimum number of Public Directors⁸ that will be required to be included in the calculation of Non-Industry Directors⁹ for the purpose of determining the number of Non-Industry Directors that may serve on the BX Board. The Exchange proposed this change in light of the cessation in 2012 by the Boston Options Exchange LLC (“BOX”) of its operations as an options trading facility of the Exchange¹⁰ and the termination of the Regulatory Services Agreement (“RSA”) between BX and BOX.¹¹ To accommodate BOX when BOX was a BX facility, three Public Directors were required to be included in the calculation of the number of Non-Industry Directors on the BX Board.¹² The Commission notes that, although only one Public Director must be included in the composition of Non-Industry Directors as a result of the proposed rule change, the requirement in BX By-Law Article IV, Section 4.3 that the number of Non-Industry

Directors must equal or exceed the sum of Industry Directors¹³ and Member Representative Directors¹⁴ will continue to be met. Moreover, the Commission notes that, as a result of the proposed rule change, the BX Board composition requirement regarding Public Directors now will be similar to the board composition requirements of NASDAQ OMX PHLX LLC (“Phlx”) and The NASDAQ Stock Market LLC (“NASDAQ”), both of which require that the number of Non-Industry Directors must include at least one Public Director.¹⁵ In addition, the Commission notes that the BX Board will continue to have three Public Directors, because the BX Board still will need to have three Public Directors available to serve on its Regulatory Oversight Committee, as required by BX By-Law Article IV, Section 4.13. For the foregoing reasons, the Commission

believes that the proposed rule change is consistent with the Act.

It is therefore ordered, pursuant to Section 19(b)(2) of the Act,¹⁶ that the proposed rule change (SR-BX-2013-029) be, and it hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁷

Deputy Secretary.
