**Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Regarding the Extranet Access Fee**

January 13, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on January 5, 2015, NASDAQ OMX BX, Inc. ("BX" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

**I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change**

The Exchange proposes to amend BX Rule 7025 (Extranet Access Fee) of the Exchange's Pricing Schedule entitled "Extranet Access Fee" ("Pricing Schedule"), as well as to clarify the applicability of the Extranet Access Fee and thereby conform it to the equivalent fee of other markets.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaqomxbx.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

**II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change**

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

*A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change*

**1. Purpose**

The purpose of the proposal is to amend BX Rule 7025 of the Exchange's Pricing Schedule, as well as to clarify the applicability of the Extranet Access Fee and thereby conform it to the equivalent fee of other markets.<sup>3</sup>

Specifically, the Exchange proposes to modify BX Rule 7025 to indicate that certain non-Exchange Customer Premises Equipment ("CPE") Products shall be assessed a monthly access fee of \$1,000 per CPE. The Exchange also proposes to conform the Extranet Access Fee to that of another market, specifically NASDAQ Rule 7025, by substituting "recipient" for "client organization" and also indicating that if

<sup>3</sup> The Exchange, NASDAQ OMX PHLX LLC ("Phlx"), and The NASDAQ Stock Market LLC ("NASDAQ") are self-regulatory organizations ("SROs") that are wholly owned subsidiaries of The NASDAQ OMX Group, Inc. ("NASDAQ OMX"). NOM (a facility of NASDAQ), BX, BX Options (a facility of BX), Phlx, and PSX (a facility of Phlx) (together with the Exchange known as the "NASDAQ Markets"), are independently filing proposals to conform their respective Extranet Access Fee rules to NASDAQ Rule 7025.

<sup>14</sup> 15 U.S.C. 78s(b)(3)(A).

<sup>15</sup> 17 CFR 240.19b-4(f).

an extranet provider uses multiple CPE Configurations<sup>4</sup> to provide market data feeds to any recipient the monthly fee shall apply to each such CPE Configuration. This proposal conforms the Extranet Access Fee in BX Rule 7025 to the equivalent fee in NASDAQ Rule 7025.

The Extranet Access Fee was introduced a decade ago on NASDAQ Rule 7025.<sup>5</sup> The Extranet Access Fee was introduced about five years ago on BX Rule 7025, and is currently set at \$750 per month.<sup>6</sup> By this proposal, the Exchange normalizes the cost and structure of its Extranet Access Fee to that of the equivalent decade-old NASDAQ fee.

BX Rule 7025 currently indicates that extranet providers that establish a connection with the Exchange to offer direct access connectivity to market data feeds shall be assessed a monthly access fee of \$750 per recipient client organization Customer Premises Equipment (CPE) Configuration. As noted, this proposal indicates the same fee as NASDAQ Rule 7025, namely \$1,000 per CPE Configuration, and adds to BX Rule 7025 verbatim clarifying language from NASDAQ Rule 7025. As proposed, BX Rule 7025 will read as follows: “Extranet providers that establish a connection with the Exchange to offer direct access connectivity to market data feeds shall be assessed a monthly access fee of \$1,000 per recipient Customer Premises Equipment (“CPE”) Configuration. If an extranet provider uses multiple CPE Configurations to provide market data feeds to any recipient, the monthly fee shall apply to each such CPE Configuration. For purposes of this Rule 7025, the term “Customer Premises

Equipment Configuration” shall mean any line, circuit, router package, or other technical configuration used by an extranet provider to provide a direct access connection to the Exchange market data feeds to a recipient’s site. No extranet access fee will be charged for connectivity to market data feeds containing only consolidated data. For purposes of this rule, consolidated data includes data disseminated by the UTP SIP. Extranet providers that establish a connection with the Exchange pursuant to this Rule 7025 as well as a connection pursuant to BX Options Chapter XV, Section 3 shall be assessed a total monthly access fee of \$1,000 per recipient CPE Configuration.” The proposal thus conforms BX Rule 7025 to NASDAQ Rule 7025, and makes them substantively identical.<sup>7</sup> The proposal also makes it clear that if an extranet provider establishes a connection on BX (equities) as well as on BX Options, the extranet provider will not need to pay a double \$1,000 monthly access fee per CPE, but rather only one total monthly access fee of \$1,000 per CPE.

The modified proposed Extranet Access Fee will, as on NASDAQ, be used to help support the Exchange’s costs associated with maintaining multiple extranet connections with multiple providers. These costs include those associated with overhead and technology infrastructure, administrative, maintenance and operational costs. Since the inception of Extranet Access there have been numerous network infrastructure improvements and administrative controls enacted. Additionally, the Exchange has implemented automated retransmission facilities for most of its data clients that benefit extranet clients by reducing operational costs associated with retransmissions.

As the number of extranets has increased, the management of the downstream customers has expanded and the Exchange has had to ensure appropriate reporting and review processes, which has resulted in a greater cost burden on the Exchange over time. The proposed fee will also help to ensure that the Exchange is better able to closely review reports and uncover reporting errors via audits thus minimizing reporting issues.<sup>8</sup> The network infrastructure has increased in order to keep pace with the increased

number of products, which, in turn, has caused an increased administrative burden and higher operational costs associated with delivery via extranets.

Thus, subsequent to the proposal extranet providers that establish a connection with the Exchange to offer direct access connectivity to market data feeds shall be assessed a monthly access fee of \$1,000 per CPE Configuration. If, as discussed below, an extranet provider uses multiple CPE Configurations to provide market data feeds to any recipient, the monthly fee shall apply to each such CPE Configuration.

The Exchange proposes two clarifications to conform the language of BX Rule 7025 to that of NASDAQ Rule 7025. Specifically, the Exchange proposes to indicate that if an extranet provider uses multiple CPE Configurations to provide market data feeds to any recipient, the monthly fee shall apply to each such CPE Configuration; and to substitute “recipient” for “client organization.” For purposes of this rule, consolidated data includes data disseminated by the UTP SIP. These proposed clarifications should serve to reduce any confusion as to the applicability of the Extranet Access Fee. Moreover, the clarifications would make the Exchange’s Extranet Access Fee in BX Rule 7025 work the same as the equivalent fee in NASDAQ Rule 7025, and complete the effort to conform the two rules.

## 2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,<sup>9</sup> in general, and with Section 6(b)(4) of the Act,<sup>10</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls.

The Exchange believes that its proposal to amend BX Rule 7025, and to clarify the applicability of the Extranet Access Fee if an extranet provider has a connection on both the equity side through BX and the options side through BX options conforms the fee on the BX markets and the equivalent fee on Phlx and NASDAQ and is consistent with the Act.

All similarly situated extranet providers, including the Exchange operating its own extranet, that establish an extranet connection with the Exchange to access market data feeds from the Exchange are subject to the same fee structure. The fee will help the

<sup>4</sup> As defined in BX Rule 7025, a “Customer Premises Equipment Configuration” means any line, circuit, router package, or other technical configuration used by an extranet provider to provide a direct access connection to the Exchange market data feeds to a recipient’s site.

<sup>5</sup> See Securities Exchange Act Release Nos. 50483 (October 1, 2004), 69 FR 60448 (October 8, 2004) (SR-NASD-2004-118) (establishing the Extranet Access Fee on NASDAQ); and 71199 (December 30, 2013), 79 FR 686 (January 6, 2014) (SR-NASDAQ-2013-159) (notice of filing and immediate effectiveness increasing the Extranet Access Fee to \$1,000).

<sup>6</sup> See Securities Exchange Act Release Nos. 59615 (March 20, 2009), 74 FR 14604 (March 31, 2009) (SR-BX-2009-005) (establishing the Extranet Access Fee on BX); and 71841 (April 1, 2014), 79 FR 19129 (April 7, 2014) (SR-BX-2014-015) (notice of filing and immediate effectiveness reinstating the Extranet Access Fee to \$750). The Extranet Access Fee was also established on PSX. See Securities Exchange Act Release No. 71236 (January 6, 2014), 79 FR 1906 (January 10, 2014) (SR-Phlx-2014-01) (notice of filing and immediate effectiveness establishing the Extranet Access Fee on PSX, and clarifying that no fee is charged at the time of the filing).

<sup>7</sup> The Exchange notes that while BX Rule 7025 and NASDAQ Rule 7025 each contain some language particular to the relevant exchange, with this proposal the language of the two rules is substantively identical.

<sup>8</sup> The Exchange will inform extranet providers of their reporting responsibilities via its public Web site.

<sup>9</sup> 15 U.S.C. 78f.

<sup>10</sup> 15 U.S.C. 78f(b)(4).

Exchange to offset some of the rising overhead and technology infrastructure, administrative, maintenance and operational costs it incurs in support of the service.

If such costs are covered, the service may provide the Exchange with a profit. As such, the Exchange believes that the proposed fee is reasonable and notes that this proposal conforms to similarly-situated Extranet Access Fee rules on Phlx and NASDAQ. The extranet costs are separate and different from the colocation facility that is able to recoup these fees by charging for servers within the associated data centers.

Additionally, the Exchange believes that the proposed change is equitable and not unreasonably discriminatory. The monthly fee is assessed uniformly to all extranet providers that establish a connection with the Exchange to offer direct access connectivity to market data feeds, and is the same for all at \$1,000 per recipient CPE Configuration. Thus, any burden arising from the fees is necessary in the interest of promoting the equitable allocation of a reasonable fee. Moreover, firms make decisions on how much and what types of data to consume on the basis of the total cost of interacting with the Exchange or other markets and, of course, the Extranet Access Fee is but one factor in a total platform analysis.

Additionally, BX Rule 7025 will be clarified by stating that if an extranet provider uses multiple CPE Configurations to provide market data feeds to any recipient, the monthly fee shall apply to each such CPE Configuration, and by replacing non-conforming language. This clarification should serve to reduce any confusion as to the applicability of this fee.

The proposal provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is consistent with the Act.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.

The proposed fees are applied uniformly among extranet providers, which are not compelled to establish a connection with the Exchange to offer access connectivity to market data feeds. For these reasons, any burden arising from the fees is necessary in the interest of promoting the equitable allocation of a reasonable fee. Additionally, firms

make decisions on how much and what types of data to consume on the basis of the total cost of interacting with the Exchange or other exchanges and, of course, the Extranet Access Fee is but one factor in a total platform analysis.

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

No written comments were either solicited or received.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Pursuant to Section 19(b)(3)(A)(ii) of the Act,<sup>11</sup> the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.
