Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Nasdaq ISE, LLC (“ISE” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to extend the delay for re-introduction of legging functionality for Stock-Option Orders.

The Exchange requests that the Commission waive the 30-day operative delay period contained in Exchange Act Rule 19b-4(f)(6)(iii).³

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on September 19, 2017. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange has filed a proposal requesting the removal of the legging functionality for Stock-Option Orders.⁴ At this time, the Exchange proposes to further extend the delay for re-introduction of legging functionality for Stock-Option Orders until the earlier of the implementation of SR-ISE-2019-05 or May 1, 2019. This extension is solely intended to provide time for SR-ISE-2019-05 to become operative.

In 2017, ISE underwent a replatform to move its functionality to INET.⁵ At that time, ISE proposed to delay the re-introduction of legging functionality for Stock-Option Orders for one year from the date of filing.⁶ Subsequently, ISE filed to delay the re-introduction of legging functionality until March 21, 2019.⁷ The Exchange provided notice to Members on two occasions⁸ with respect to delaying the reintroduction of the

⁴ SR-ISE-2019-05. The legging functionality allows Members to leg into the regular market where they may trade against bids and offers for the individual legs pursuant to Rule 722(d)(2) and (3) and Supplementary Material .01 and .02 to Rule 722 (“legging”). The legging functionality will continue to be available for complex options orders. See Rule 722(c)(2).

⁵ INET is the proprietary core technology utilized across Nasdaq’s global markets. The migration of ISE to the Nasdaq INET architecture has resulted in higher performance, scalability, and more robust architecture.

legging functionality for Stock-Option Orders. In addition, the Exchange has notified Members that it will not offer this functionality going forward.⁹

Today, because of the delay in reintroducing legging functionality, Stock-Option Orders entered on ISE are not automatically executed against bids and offers on the Exchange for the individual legs pursuant to Rule 722(b)(3)(ii)-(iii) and Supplementary Material .02 to Rule 722. Stock-Option Orders continue to execute against other Stock-Option Orders in the complex order book, thereby providing an opportunity for Members to have their Stock-Option Orders executed on the Exchange.

(b) Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹¹ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. In particular, the Exchange believes that the proposed rule change is consistent with the protection of investors and the public interest because it would provide additional time for ISE' proposal to eliminate the legging functionality for Stock-Option Orders to become operative.¹² The Exchange has notified Members that it will not offer this

functionality going forward.¹³ Members can continue to submit these orders to the Exchange where they can be executed against other Stock-Option Orders on the complex order book. No Members have notified the Exchange of any impact on execution quality as a result of the delayed implementation of legging functionality for Stock-Option Orders, and therefore the Exchange does not believe that extending the delay will have a significant impact on market participants. The Exchange proposes to extend the delay for re-introduction of legging functionality for Stock-Option Orders until the earlier of the implementation of SR-ISE-2019-05 or May 1, 2019.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange does not believe that the proposed delay will impose any significant burden on intra-market competition because legging for Stock-Option Orders will be uniformly delayed for all Members. Similarly, the Exchange does not believe that the proposed delay will impose any significant burden on inter-market competition as it does not impact the ability of other markets to offer or not offer competing functionality.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

¹³ See Options Trader Alert 2019-3.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)¹⁴ of the Act and Rule 19b-4(f)(6) thereunder¹⁵ in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange believes that the proposed rule change does not significantly affect the protection of investors or the public interest as it would merely provide the Exchange additional time to propose and receive effectiveness of a rule change from the Commission to eliminate this functionality. The Exchange has notified Members that it will not offer the legging functionality for Stock-Option orders going forward.¹⁶ Members will continue to be able to execute their Stock-Option Orders against other Stock-Option Orders on the complex order book, thereby providing a means for these orders to be executed notwithstanding the additional delay. In addition, the Exchange does not believe the proposed rule change imposes any significant burden on competition because legging for Stock-Option Orders will be uniformly delayed for all Members, and the proposed rule change does not impact the ability of other markets to offer or not offer competing functionality.

¹⁴ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁵ 17 CFR 240.19b-4(f)(6).

¹⁶ See Options Trader Alert 2019-3.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

A proposed rule change filed under Rule 19b-4(f)(6) normally does not become operative prior to 30 days after the date of filing. Rule 19b-4(f)(6)(iii), however, permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange requests that the Commission waive the 30-day operative delay contained in Rule 19b-4(f)(6)(iii) so that the Exchange can extend the delay until the earlier of the implementation of SR-ISE-2019-05 or May 1, 2019. The Exchange believes that extending the implementation delay will provide time for SR-ISE-2019-05 to become operative. Without waiver of the operative delay, the would be required to reintroduce the legging functionality for Stock-Option order until SR-ISE-2019-05 became operative.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-ISE-2019-06)

March __, 2019

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to extend the delay for re-introduction of legging functionality

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ and Rule 19b-4 thereunder,² notice is hereby given that on March 11, 2019, Nasdaq ISE, LLC (“ISE” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to extend the delay for re-introduction of legging functionality for Stock-Option Orders.

The text of the proposed rule change is available on the Exchange’s Website at <http://ise.cchwallstreet.com/>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

² 17 CFR 240.19b-4.

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange has filed a proposal requesting the removal of the legging functionality for Stock-Option Orders.³ At this time, the Exchange proposes to further extend the delay for re-introduction of legging functionality for Stock-Option Orders until the earlier of the implementation of SR-ISE-2019-05 or May 1, 2019. This extension is solely intended to provide time for SR-ISE-2019-05 to become operative.

In 2017, ISE underwent a replatform to move its functionality to INET.⁴ At that time, ISE proposed to delay the re-introduction of legging functionality for Stock-Option Orders for one year from the date of filing.⁵ Subsequently, ISE filed to delay the re-introduction of legging functionality until March 21, 2019.⁶ The Exchange provided

³ SR-ISE-2019-05. The legging functionality allows Members to leg into the regular market where they may trade against bids and offers for the individual legs pursuant to Rule 722(d)(2) and (3) and Supplementary Material .01 and .02 to Rule 722 ("legging"). The legging functionality will continue to be available for complex options orders. See Rule 722(c)(2).

⁴ INET is the proprietary core technology utilized across Nasdaq's global markets. The migration of ISE to the Nasdaq INET architecture has resulted in higher performance, scalability, and more robust architecture.

notice to Members on two occasions⁷ with respect to delaying the reintroduction of the legging functionality for Stock-Option Orders. In addition, the Exchange has notified Members that it will not offer this functionality going forward.⁸

Today, because of the delay in reintroducing legging functionality, Stock-Option Orders entered on ISE are not automatically executed against bids and offers on the Exchange for the individual legs pursuant to Rule 722(b)(3)(ii)-(iii) and Supplementary Material .02 to Rule 722. Stock-Option Orders continue to execute against other Stock-Option Orders in the complex order book, thereby providing an opportunity for Members to have their Stock-Option Orders executed on the Exchange.

2. Statutory Basis

The Exchange believes that the proposed rule change is consistent with Section 6(b) of the Act,⁹ in general, and furthers the objectives of Section 6(b)(5) of the Act,¹⁰ in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest. become operative.¹¹ The Exchange has notified Members that it will not offer this functionality going forward.¹² Members can continue to submit these orders to the Exchange where they can be executed against other Stock-Option Orders on the complex order book. No Members have notified the Exchange of any impact on execution quality as a result of the delayed implementation of legging functionality for Stock-Option Orders, and therefore the Exchange does not believe that extending the delay will have a significant impact on market participants. The Exchange proposes to extend the delay for re-introduction of legging functionality for Stock-Option Orders until the earlier of the implementation of SR-ISE-2019-05 or May 1, 2019.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. Specifically, the Exchange does not believe that the proposed delay will impose any significant burden on intra-market competition because legging for Stock-Option Orders will be uniformly delayed for all Members. Similarly, the Exchange does not believe that the proposed delay will impose any significant burden on inter-market competition as it does not impact the ability of other markets to offer or not offer competing functionality.

No written comments were either solicited or received.

¹¹ SR-ISE-2019-05.

¹² See Options Trader Alert 2019-3.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹³ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹³ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁴ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
