Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Nasdaq ISE, LLC (“ISE” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend the Exchange’s Pricing Schedule at Options 7, Section 3 (Regular Order Fees and Rebates).

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”). Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

3. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the Exchange’s Pricing Schedule at Options 7, Section 3 (Regular Order Fees and Rebates) to increase the Select Symbol³ break-up rebate currently provided to Electronic Access Members⁴ (“EAMs”) that utilize the Price Improvement Mechanism (“PIM”).⁵

The Exchange currently provides EAMs that use PIM to execute more than 0.75% of Priority Customer⁶ volume of regular orders, calculated as a percentage of Customer Total Consolidated Volume⁷ (“TCV”) per day in a given month, a PIM break-up rebate of \$0.25 per contract in Select Symbols and \$0.60 per contract in Non-Select Symbols.⁸

³ “Select Symbols” are options overlying all symbols listed on ISE that are in the Penny Interval Program. See Options 7, Section 1(c).

⁴ The term “Electronic Access Member” means a Member that is approved to exercise trading privileges associated with EAM Rights. See General 1, Section 1(a)(6).

⁵ As described in Options 3, Section 13, PIM is a process by which an EAM can provide price improvement opportunities for a “Crossing Transaction,” which is comprised of the order the EAM represents as agent (the “Agency Order”) and a counter-side order for the full size of the Agency Order (the “Counter-Side Order”). Upon the entry of a Crossing Transaction into the PIM, PIM responses (i.e., “Improvement Orders”) may be entered during the auction exposure period.

⁶ A “Priority Customer” is a person or entity that is not a broker/dealer in securities, and does not place more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s), as defined in Nasdaq ISE Options 1, Section 1(a)(37).

⁷ “Customer Total Consolidated Volume” means the total national volume cleared at The Options Clearing Corporation in the Customer range in equity and ETF options in that month.

⁸ “Non-Select Symbols” are options overlying all symbols excluding Select Symbols. See Options 7, Section 1(c).

These rebates are applied to Priority Customer regular orders under 100 contracts that are submitted to PIM and do not trade with their contra orders except when those contracts trade against unrelated quotes or orders.⁹

The Exchange now proposes to increase the \$0.25 per contract PIM break-up rebate described above for Select Symbols to \$0.26 per contract. With the proposed change, the Exchange is seeking to incentivize EAMs to submit a greater amount of Priority Customer orders in Select Symbols into PIM for price improvement.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹¹ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange's proposed changes to its Pricing Schedule are reasonable in several respects. As a threshold matter, the Exchange is subject to significant competitive forces in the market for options securities transaction services that constrain its pricing determinations in that market. The fact that this market is competitive has long been recognized by the courts. In NetCoalition v. Securities and Exchange Commission, the D.C. Circuit stated as follows: “[n]o one disputes that competition for order flow is ‘fierce.’ ... As the SEC explained, ‘[i]n the U.S. national market system,

⁹ See note 19 of Options 7, Section 3.

¹⁰ 15 U.S.C. 78f(b).

¹¹ 15 U.S.C. 78f(b)(4) and (5).

buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’....”¹²

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹³

Numerous indicia demonstrate the competitive nature of this market. For example, clear substitutes to the Exchange exist in the market for options security transaction services. The Exchange is only one of sixteen options exchanges to which market participants may direct their order flow. Within this environment, market participants can freely and often do shift their order flow among the Exchange and competing venues in response to changes in their respective pricing schedules. As such, the proposal represents a reasonable attempt by the Exchange to increase its liquidity and market share relative to its competitors.

¹² NetCoalition v. SEC, 615 F.3d 525, 539 (D.C. Cir. 2010) (quoting Securities Exchange Act Release No. 59039 (December 2, 2008), 73 FR 74770, 74782-83 (December 9, 2008) (SR-NYSEArca-2006-21)).

¹³ Securities Exchange Act Release No. 51808 (June 9, 2005), 70 FR 37496, 37499 (June 29, 2005) (“Regulation NMS Adopting Release”).

The Exchange believes that its proposal to increase the \$0.25 per contract PIM break-up rebate for Select Symbols to \$0.26 per contract is reasonable because the increased incentive will further encourage participation in PIM. Specifically, the Exchange believes that the proposed rebate will encourage increased originating Priority Customer order flow in Select Symbols into PIM for price improvement, thus potentially increasing the initiation of PIM and volume executed therein. Additional PIM order flow provides all market participants with trading opportunities at improved prices.

While the proposed increase to the PIM break-up rebate for Select Symbols will continue to be specifically targeted towards Priority Customer orders entered into PIM, the Exchange continues to believe that this is equitable and not unfairly discriminatory. Of note, today, Priority Customers generally receive more favorable pricing on ISE, including by not paying any fees for PIM Orders.¹⁴ Furthermore, Priority Customer liquidity benefits all market participants by providing more trading opportunities, which in turn attracts market makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow other market participants. The Exchange therefore believes that attracting more liquidity from Priority Customer orders will benefit all market participants that trade on ISE.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly

¹⁴ See Options 7, Section 3.

competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

In terms of intra-market competition, the Exchange's proposal to increase the PIM break-up rebate for Priority Customer orders in Select Symbols does not impose an undue burden on competition because Priority Customer liquidity benefits all market participants on ISE by providing more trading opportunities, which in turn attracts market makers. As discussed above, an increase in the activity of these market participants in turn facilitates tighter spread, which may cause an additional corresponding increase in order flow from other market participants.

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-ISE-2023-04)

February __, 2023

Self-Regulatory Organizations; Nasdaq ISE, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend Pricing Schedule at Options 7, Section 3

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹, and Rule 19b-4 thereunder,² notice is hereby given that on February 1, 2023, Nasdaq ISE, LLC (“ISE” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the Exchange’s Pricing Schedule at Options 7, Section 3 (Regular Order Fees and Rebates).

The text of the proposed rule change is available on the Exchange’s Website at <https://listingcenter.nasdaq.com/rulebook/ise/rules>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it

received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Exchange's Pricing Schedule at Options 7, Section 3 (Regular Order Fees and Rebates) to increase the Select Symbol³ break-up rebate currently provided to Electronic Access Members⁴ ("EAMs") that utilize the Price Improvement Mechanism ("PIM").⁵

The Exchange currently provides EAMs that use PIM to execute more than 0.75% of Priority Customer⁶ volume of regular orders, calculated as a percentage of Customer
