1. Text of the Proposed Rule Change

(a) Nasdaq MRX, LLC (“MRX” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend MRX Rule 804(h), regarding quote mitigation.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange (the “Board”) on August 15, 2016. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to amend MRX Rule 804, entitled "Market Maker Quotations," to specifically amend Rule 804(h) which addresses the Exchange's quote traffic mitigation plan to adopt a similar quote mitigation plan to that of NASDAQ PHLX LLC ("Phlx").

ISE Mercury, LLC (now known as MRX) implemented its quote mitigation plan in 2013, at the time it filed its Form 1 application.<sup>3</sup> At that time, MRX adopted the same quote mitigation plan that was in effect on ISE.<sup>4</sup>

MRX Rule 804(h) provides that MRX shall utilize a mechanism so that newly-received quotations and other changes to the Exchange's best bid and offer are not disseminated for a period of up to, but not more than one second. With the upcoming planned migration to INET,<sup>5</sup> the Exchange proposes to utilize a plan similar to that of Phlx for quote mitigation. The Exchange proposes to amend Rule 804(h) to adopt language similar to Phlx. Since 2007, Phlx has operated on INET, the same system that MRX will be migrating to utilize.

No.76998 (January 29, 2016), 81 FR 6066 (February 4, 2016) (File No. 10-221) (In the Matter of the Application of ISE Mercury, LLC for Registration as a National Securities Exchange; Findings, Opinion, and Order of the Commission). This pilot has since been extended several times.

<sup>4</sup> See Securities Exchange Release Act. No. 55161 (February 1, 2007), 72 FR 4754 (January 24,2007) (SR-ISE-2006-62) (Order Granting Approval to Proposed Rule Change as Modified by Amendment Nos. 1 and 2 Thereto, To Implement a Penny Pilot Program To Quote Certain Options in Pennies).

<sup>5</sup> See SR-MRX-2017-02 (not yet published).

Phlx Rule 1082(a)(ii)(C) sets forth the conditions under which Phlx disseminates updated quotations based on changes in the Exchange's disseminated price and/or size. Phlx disseminates an updated bid and offer price, together with the size associated with such bid and offer, when: (1) Phlx's disseminated bid or offer price increases or decreases; (2) the size associated with Phlx's disseminated bid or offer decreases; or (3) the size associated with Phlx's bid (offer) increases by an amount greater than or equal to a percentage (never to exceed 20%)<sup>6</sup> of the size associated with the previously disseminated bid (offer). Such percentage, which would never exceed 20%, would be determined on an issue-by-issue basis by the Exchange and announced to membership via an Exchange circular. The percentage size increase necessary to give rise to a refreshed quote may vary from issue to issue, depending, without limitation, on the liquidity, average volume, and average number of quotations submitted in the issue. The mitigation would apply to all options traded on MRX.

The Exchange will not be adopting Phlx Rule 1082(a)(ii)(C)(4). This functionality is not necessary on INET. Phlx adopted 1082(a)(ii)(C)(4) when it was not operating on INET, with its subsequent replatform to INET functionality, 1082(a)(ii)(C)(4) was no longer necessary because of the real-time features which exist on INET. The INET functionality rendered the rule text in 1082(a)(ii)(C)(4) as unnecessary.

The Exchange will begin a system migration to Nasdaq INET in Q3 of 2017.<sup>7</sup> The migration will be on a symbol by symbol basis as specified by the Exchange in a

notice to Members. The Exchange is proposing to implement this rule change once all symbols have migrated to INET.

Upon completion of the migration to INET, MRX will set an initial percentage of 3% to be applied to all issues, which will be announced in an Options Trader Alert. MRX will continue to monitor the quote activity on the market and would not notify participants of any incremental increase in the size of the Exchange's quote to be disseminated to OPRA.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>9</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by reducing the number of options quotations required to be submitted to OPRA and, therefore, mitigating the Exchange's quote message traffic and capacity. By adopting a quote mitigation plan similar to Phlx, the Exchange will continue to mitigate quotes and monitor its quote capacity, as is the case today. While the Phlx method differs from that of MRX's rule, the Exchange believes that Phlx's method today successfully mitigates quotes on that market. In addition, MRX desires to adopt a similar mitigation as currently utilized by its affiliated market, as it will operate on the same architecture.

---

<sup>8</sup> 15 U.S.C. 78f(b).

<sup>9</sup> 15 U.S.C. 78f(b)(5).

The Phlx quote mitigation process has been in place since 2007. Phlx is operating on the INET system today, the same system that MRX will migrate to for its operating system. The Exchange believes that Phlx's quote mitigation process has successfully controlled Phlx's quote capacity. The Exchange believes that it is reasonable to utilize a similar process as Phlx to mitigate quotes for MRX given the system architecture which will be utilized on MRX with the upcoming migration. Additionally, Nasdaq, Inc., a common parent to Phlx and MRX, has experience with this quote mitigation strategy on INET. The Exchange has selected to mitigate MRX at 3% to start and determine if the percentage will need to be adjusted thereafter. The Exchange has selected to mitigate MRX at 3% initially because, unlike Phlx, which is a mature market with various auction offerings and higher volumes, MRX is a not as large in volume and has fewer functional offerings, e.g. complex orders and floor trading. The Exchange notes that it will continue to monitor quotes on MRX and make adjustments as necessary.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange proposes to mitigate all options trading on MRX. All options exchanges have a quote mitigation process in place in connection with their participation in the Penny Pilot Program.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not Applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(iii)<sup>10</sup> of the Act and Rule 19b-4(f)(6) thereunder<sup>11</sup> in that it effects a change that: (i) does not significantly affect the protection of investors or the public interest; (ii) does not impose any significant burden on competition; and (iii) by its terms, does not become operative for 30 days after the date of the filing, or such shorter time as the Commission may designate if consistent with the protection of investors and the public interest.

The Exchange's proposal does not significantly affect the protection of investors or the public interest because the quote mitigation proposal will continue to ensure that the Exchange is monitoring its quote capacity. The Exchange's proposal does not impose any significant burden on competition because it is adopting a similar quote mitigation process that Phlx utilizes today.

Furthermore, Rule 19b-4(f)(6)(iii) requires a self-regulatory organization to give the Commission written notice of its intent to file a proposed rule change under that subsection at least five business days prior to the date of filing, or such shorter time as designated by the Commission. The Exchange has provided such notice.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If

<sup>11</sup> 17 CFR 240.19b-4(f)(6).

the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

The proposal is similar to Phlx Rule 1082(a)(ii)(C).<sup>12</sup> The Exchange notes that it is not adopting Phlx Rule 1082(a)(ii)(C)(4). This functionality is not necessary on INET. Phlx adopted 1082(a)(ii)(C)(4) when it was not operating on INET, with its subsequent replatform to INET functionality, 1082(a)(ii)(C)(4) was no longer necessary because of the real-time features which exist on INET. The INET functionality rendered the rule text in 1082(a)(ii)(C)(4) as unnecessary.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

<sup>12</sup> The Exchange notes that it is not adopting Phlx Rule 1082(a)(ii)(C)(4). This functionality is not necessary on INET. Phlx adopted 1082(a)(ii)(C)(4) when it was not operating on INET, with its subsequent replatform to INET functionality, 1082(a)(ii)(C)(4) was no longer necessary because of the real-time features which exist on INET. Self-Regulatory Organizations; Nasdaq MRX, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Regarding Quote Mitigation

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on June 15, 2017, Nasdaq MRX, LLC (“MRX” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend MRX Rule 804(h), regarding quote mitigation.

The text of the proposed rule change is available on the Exchange’s Website at [www.ise.com](http://www.ise.com), at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at

the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend MRX Rule 804, entitled “Market Maker Quotations,” to specifically amend Rule 804(h) which addresses the Exchange’s quote traffic mitigation plan to adopt a similar quote mitigation plan to that of NASDAQ PHLX LLC (“Phlx”).

ISE Mercury, LLC (now known as MRX) implemented its quote mitigation plan in 2013, at the time it filed its Form 1 application.<sup>3</sup> At that time, MRX adopted the same quote mitigation plan that was in effect on ISE.<sup>4</sup>

MRX Rule 804(h) provides that MRX shall utilize a mechanism so that newly-received quotations and other changes to the Exchange's best bid and offer are not disseminated for a period of up to, but not more than one second. With the upcoming planned migration to INET,<sup>5</sup> the Exchange proposes to utilize a plan similar to that of Phlx for quote mitigation. The Exchange proposes to amend Rule 804(h) to adopt

This pilot has since been extended several times.

language similar to Phlx. Since 2007, Phlx has operated on INET, the same system that MRX will be migrating to utilize.

Phlx Rule 1082(a)(ii)(C) sets forth the conditions under which Phlx disseminates updated quotations based on changes in the Exchange's disseminated price and/or size. Phlx disseminates an updated bid and offer price, together with the size associated with such bid and offer, when: (1) Phlx's disseminated bid or offer price increases or decreases; (2) the size associated with Phlx's disseminated bid or offer decreases; or (3) the size associated with Phlx's bid (offer) increases by an amount greater than or equal to a percentage (never to exceed 20%)<sup>6</sup> of the size associated with the previously disseminated bid (offer). Such percentage, which would never exceed 20%, would be determined on an issue-by-issue basis by the Exchange and announced to membership via an Exchange circular. The percentage size increase necessary to give rise to a refreshed quote may vary from issue to issue, depending, without limitation, on the liquidity, average volume, and average number of quotations submitted in the issue. The mitigation would apply to all options traded on MRX.

The Exchange will not be adopting Phlx Rule 1082(a)(ii)(C)(4). This functionality is not necessary on INET. Phlx adopted 1082(a)(ii)(C)(4) when it was not operating on INET, with its subsequent replatform to INET functionality, 1082(a)(ii)(C)(4) was no longer necessary because of the real-time features which exist on INET. The INET functionality rendered the rule text in 1082(a)(ii)(C)(4) as unnecessary.

---

<sup>6</sup> Phlx has set its percentage to 10%. See <http://www.nasdaqtrader.com/content/phlxmemos/2007/jan/0197-07.pdf>.

The Exchange will begin a system migration to Nasdaq INET in Q3 of 2017.<sup>7</sup> The migration will be on a symbol by symbol basis as specified by the Exchange in a notice to Members. The Exchange is proposing to implement this rule change once all symbols have migrated to INET.

Upon completion of the migration to INET, MRX will set an initial percentage of 3% to be applied to all issues, which will be announced in an Options Trader Alert. MRX will continue to monitor the quote activity on the market and would not notify participants of any incremental increase in the size of the Exchange's quote to be disseminated to OPRA.

## 2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,<sup>8</sup> in general, and furthers the objectives of Section 6(b)(5) of the Act,<sup>9</sup> in particular, in that it is designed to promote just and equitable principles of trade, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general to protect investors and the public interest, by reducing the number of options quotations required to be submitted to OPRA and, therefore, mitigating the Exchange's quote message traffic and capacity. By adopting a quote mitigation plan similar to Phlx, the Exchange will continue to mitigate quotes and monitor its quote capacity, as is the case today. While the Phlx method differs from that of MRX's rule, the Exchange believes that Phlx's method today successfully mitigates

quotes on that market. In addition, MRX desires to adopt a similar mitigation as currently utilized by its affiliated market, as it will operate on the same architecture.

The Phlx quote mitigation process has been in place since 2007. Phlx is operating on the INET system today, the same system that MRX will migrate to for its operating system. The Exchange believes that Phlx's quote mitigation process has successfully controlled Phlx's quote capacity. The Exchange believes that it is reasonable to utilize a similar process as Phlx to mitigate quotes for MRX given the system architecture which will be utilized on MRX with the upcoming migration. Additionally, Nasdaq, Inc., a common parent to Phlx and MRX, has experience with this quote mitigation strategy on INET. The Exchange notes that it will continue to monitor quotes on MRX and make adjustments as necessary.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange proposes to mitigate all options trading on MRX. All options exchanges have a quote mitigation process in place in connection with their participation in the Penny Pilot Program.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>10</sup> and subparagraph (f)(6) of Rule 19b-4 thereunder.<sup>11</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

---

<sup>10</sup> 15 U.S.C. 78s(b)(3)(A)(iii).

<sup>11</sup> 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

(h) In order to control the number of quotations the Exchange disseminates, the Exchange shall disseminate an updated bid and offer price, together with the size associated with such bid and offer, when: [utilize a mechanism so that newly-received quotations and other changes to the Exchange's best bid and offer are not disseminated for a period of up to, but not more than one second.]

(1) the Exchange's disseminated bid or offer price increases or decreases;

(2) the size associated with the Exchange's disseminated bid or offer decreases;  
or

(3) the size associated with the Exchange's bid (offer) increases by an amount greater than or equal to a percentage (never to exceed 20%) of the size associated with previously disseminated bid (offer). Such percentage, which shall never exceed 20%, shall be determined on an issue-by-issue basis by the Exchange and announced to membership via Exchange circular.
