3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

NASDAQ proposes to amend Chapter XV, Section 2 regarding the Tier 6 NOM Market Maker Rebates to Add Liquidity in Penny Pilot Options, to add another methodology by which a Participant can earn the rebate. NASDAQ proposes the amendment in order to continue to incentivize Participants to select NOM as a venue when directing order flow.

Rebates for Adding NOM Market Maker Liquidity

The Exchange currently pays NOM Market Maker Rebates to Add Liquidity based on a six tier rebate structure, which is found in Chapter XV, Section 2(1), as follows:

<b>Monthly Volume</b>		<b>Rebate to Add Liquidity</b>
<b>Tier 1</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of up to 0.10% of total industry customer equity and ETF option average daily volume ("ADV") contracts per day in a month	\$0.20
<b>Tier 2</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.10% to 0.30% of total industry customer equity and ETF option ADV contracts per day in a month	\$0.25
<b>Tier 3</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.30% to 0.60% of total industry customer equity and ETF option ADV contracts per day in a month	\$0.30

<b>Monthly Volume</b>		<b>Rebate to Add Liquidity</b>
<b>Tier 4</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of above 0.60% of total industry customer equity and ETF option ADV contracts per day in a month	\$0.32 or \$0.38 in the following symbols BAC, GLD, IWM, QQQ and VXX or \$0.40 in SPY
<b>Tier 5</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of above 0.30% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options.	\$0.40
<b>Tier 6</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options	\$0.42

For purposes of qualifying for a NOM Market Maker Penny Pilot Options Rebate to Add Liquidity tier, the Exchange today uses a metric that is a percentage of total industry customer equity and exchange traded fund (“ETF”) option average daily volume (“ADV”) contracts per day in a month.<sup>6</sup> This percentage metric is graduated from Tier 1 (lowest percentage) through Tier 6 (highest percentage). For example, currently a Participant can earn the \$0.20 Tier 1 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of up to 0.10% of total industry customer equity and ETF option ADV contracts per day in a month; and can earn the

<sup>6</sup> See Securities Exchange Act Release No. 71703 (March 12, 2014), 79 FR 15172 (March 18, 2014) (SR-NASDAQ-2014-023) (order approving proposal to establish, among other things, the percentage metric).

\$0.42 Tier 6 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer,<sup>7</sup> and/or Professional<sup>8</sup> Rebate to Add Liquidity in Penny Pilot Options.

The Exchange proposes to amend the Tier 6 rebate to add an alternative to the current metric. Specifically, in addition to the current metric of above 0.80% of total industry customer equity and ETF option ADV where the NOM Market Maker also qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options,<sup>9</sup> the Exchange proposes to add the alternate metric that a Participant may earn a Tier 6 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

---

<sup>7</sup> The term “Customer” means any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation (“OCC”) which is not for the account of broker or dealer or for the account of a “Professional” (as that term is defined in Chapter I, Section 1(a)(48)). See Chapter XV.

<sup>8</sup> The term “Professional” means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Chapter I, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants. See Chapter XV.

<sup>9</sup> The Tier 7 rebate requires that a participant has Total Volume of 150,000 or more contracts per day in a month, of which 50,000 or more contracts per day in a month must be Customer and/or Professional liquidity in Penny Pilot Options. The Tier 8 rebate requires that the Participant adds Customer and/or Professional liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 0.75% or more of national customer volume in multiply-listed equity and ETF options classes in a month. See Chapter XV, Section 2(1).

With the proposed amendment, the Exchange would pay a Tier 6 \$0.42 per contract rebate where a Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options, or Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month. The Exchange is not amending the current qualification for the Tier 6 NOM Market Maker rebate, but is simply adding an alternate method to qualify to earn a rebate.

In addition, the Exchange is proposing to delete an extraneous period in Tier 5, and thereby conform the punctuation in Tiers 1 through 6 of the NOM Market Maker Rebates to Add Liquidity in Penny Pilot Options.

The Exchange would continue to incentivize Participants, with NOM Market Maker rebate Tiers 1 through 6 as amended, to provide liquidity by paying specified rebates to those Participants that add NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options according to percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month.<sup>10</sup>

---

<sup>10</sup> The dynamic rebate structure, consisting of a percentage of total industry customer equity and ETF option ADV, is similar for Customer and/or Professional Penny Pilot Options as well as for NOM Market Makers for similar products (e.g., Penny Pilot Options and Non-Penny Pilot Options). The Exchange notes that if a Participant qualifies for two tiers, the higher rebate will be paid in a given month.

b. Statutory Basis

NASDAQ believes that its proposal to amend its Pricing Schedule is consistent with Section 6(b) of the Act<sup>11</sup> in general, and furthers the objectives of Section 6(b)(4) and (b)(5) of the Act<sup>12</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange's goal is to modify percentage eligibility thresholds where a Participant adds NOM Market Maker liquidity in order to continue to encourage market participants to direct a greater amount of NOM Market Maker liquidity to the Exchange. The Exchange's proposal does not eliminate rebates or the ability for market participants to earn rebates, but rather incorporates an additional way to earn rebates as noted herein.

The Exchange's proposal to amend Tier 6 of the NOM Market Maker Rebate to Add Liquidity in Penny Pilot Options is reasonable, equitable and not unfairly discriminatory for the reasons noted below.

The Exchange's proposal to adopt a new Tier 6 metric for Participants that add the highest level of NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month is equitable and not unfairly discriminatory because all

<sup>12</sup> 15 U.S.C. 78f(b)(4), (5).

eligible Participants that qualify for the additional Tier 6 NOM Market Maker Rebate to Add Liquidity metric will be uniformly paid the rebate.<sup>13</sup>

The Exchange would continue to incentivize Participants, with Tiers 1 through 6 NOM Market Maker Penny Pilot Options Rebates to Add Liquidity, as amended, to provide liquidity by paying specified rebates to those Participants that add NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options according to percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month. The proposed percentage metrics are dynamic in nature in that they reference total industry options contracts per day (rather than a static number of contracts per day)<sup>14</sup>, and thereby make the Rebate structure similar for Customers and/or Professionals as well as for NOM Market Makers for similar products (e.g., Penny Pilot Options and Non-Penny Pilot Options).<sup>15</sup>

In addition, the Exchange believes it is reasonable to continue to use percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month because that is a benchmark that Participants are comfortable with in

---

<sup>13</sup> The NOM Market Maker obligations and regulatory requirements remain unchanged. Pursuant to Chapter VII (Market Participants), Section 5 (Obligations of Market Makers), in registering as a market maker, an Options Participant commits himself to various obligations. Transactions of a Market Maker in its market making capacity must constitute a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and Market Makers should not make bids or offers or enter into transactions that are inconsistent with such course of dealings. Further, all Market Makers are designated as specialists on NOM for all purposes under the Act or rules thereunder. See Chapter VII, Section 5.

<sup>14</sup> See supra note 6.

<sup>15</sup> The Exchange notes that if a Participant qualifies for two tiers, the higher rebate will be paid.

respect to Customer and Professional liquidity. Moreover, the Exchange believes that industry customer volume is a fair metric because it does not have the periodic spikes that may occur due to floor trading. Because NOM is an electronic market place with no trading floor, the Exchange believes that an industry volume metric is fair and reasonable.

4. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes that adding an additional percentage eligibility metric in Tier 6 for Participants that bring the largest amount of liquidity should encourage Participants to direct additional NOM Market Maker order flow to the Exchange, and will dovetail with the existing metric in Tier 6.

Added liquidity benefits all market participants by providing more trading opportunities, which attracts market participants to the Exchange. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The Exchange believes that encouraging Participants to add NOM Market Maker liquidity creates competition among options exchanges because the Exchange believes that the rebates may cause market participants to select NOM as a venue to send order flow. The Exchange is continuing to offer rebates at specified percentage metrics for NOM Market Maker order flow being executed at the Exchange, which additional order flow should benefit other market participants.

The Exchange operates in a highly competitive market comprised of twelve U.S. options exchanges in which many sophisticated and knowledgeable market participants

can readily and do send order flow to competing exchanges if they deem fee levels or rebate incentives at a particular exchange to be excessive or inadequate. These market forces support the Exchange belief that the rebate structure and tiers as amended are competitive with rebates and tiers in place on other exchanges. The Exchange believes that this competitive marketplace continues to impact the rebates present on the Exchange today and substantially influences the proposals set forth above.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ proposes to amend Chapter XV, Section 2 regarding the Tier 6 NOM Market Maker Rebates to Add Liquidity in Penny Pilot Options, to add another methodology by which a Participant can earn the rebate. NASDAQ proposes the amendment in order to continue to incentivize Participants to select NOM as a venue when directing order flow.

Rebates for Adding NOM Market Maker Liquidity

The Exchange currently pays NOM Market Maker Rebates to Add Liquidity based on a six tier rebate structure, which is found in Chapter XV, Section 2(1), as follows:

<b>Monthly Volume</b>		<b>Rebate to Add Liquidity</b>
<b>Tier 1</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of up to 0.10% of total industry customer equity and ETF option average daily volume ("ADV") contracts per day in a month	\$0.20

<b>Tier 6</b>	Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options	\$0.42

For purposes of qualifying for a NOM Market Maker Penny Pilot Options Rebate to Add Liquidity tier, the Exchange today uses a metric that is a percentage of total industry customer equity and exchange traded fund (“ETF”) option average daily volume

(“ADV”) contracts per day in a month.<sup>5</sup> This percentage metric is graduated from Tier 1 (lowest percentage) through Tier 6 (highest percentage). For example, currently a Participant can earn the \$0.20 Tier 1 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of up to 0.10% of total industry customer equity and ETF option ADV contracts per day in a month; and can earn the \$0.42 Tier 6 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer,<sup>6</sup> and/or Professional<sup>7</sup> Rebate to Add Liquidity in Penny Pilot Options.

The Exchange proposes to amend the Tier 6 rebate to add an alternative to the current metric. Specifically, in addition to the current metric of above 0.80% of total industry customer equity and ETF option ADV where the NOM Market Maker also qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options,<sup>8</sup> the Exchange proposes to add the alternate metric that a Participant

<sup>6</sup> The term “Customer” means any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation (“OCC”) which is not for the account of broker or dealer or for the account of a “Professional” (as that term is defined in Chapter I, Section 1(a)(48)). See Chapter XV.

<sup>7</sup> The term “Professional” means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Chapter I, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants. See Chapter XV.

<sup>8</sup> The Tier 7 rebate requires that a participant has Total Volume of 150,000 or more contracts per day in a month, of which 50,000 or more contracts per day in a

may earn a Tier 6 rebate if he adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

With the proposed amendment, the Exchange would pay a Tier 6 \$0.42 per contract rebate where a Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.80% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for the Tier 7 or Tier 8 Customer and/or Professional Rebate to Add Liquidity in Penny Pilot Options, or Participant adds NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month. The Exchange is not amending the current qualification for the Tier 6 NOM Market Maker rebate, but is simply adding an alternate method to qualify to earn a rebate.

In addition, the Exchange is proposing to delete an extraneous period in Tier 5, and thereby conform the punctuation in Tiers 1 through 6 of the NOM Market Maker Rebates to Add Liquidity in Penny Pilot Options.

The Exchange would continue to incentivize Participants, with NOM Market Maker rebate Tiers 1 through 6 as amended, to provide liquidity by paying specified rebates to those Participants that add NOM Market Maker liquidity in Penny Pilot

month must be Customer and/or Professional liquidity in Penny Pilot Options. The Tier 8 rebate requires that the Participant adds Customer and/or Professional liquidity in Penny Pilot Options and/or Non-Penny Pilot Options of 0.75% or more of national customer volume in multiply-listed equity and ETF options classes in a month. See Chapter XV, Section 2(1).

Options and/or Non-Penny Pilot Options according to percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month.<sup>9</sup>

2. Statutory Basis

NASDAQ believes that its proposal to amend its Pricing Schedule is consistent with Section 6(b) of the Act<sup>10</sup> in general, and furthers the objectives of Section 6(b)(4) and (b)(5) of the Act<sup>11</sup> in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which NASDAQ operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange's goal is to modify percentage eligibility thresholds where a Participant adds NOM Market Maker liquidity in order to continue to encourage market participants to direct a greater amount of NOM Market Maker liquidity to the Exchange. The Exchange's proposal does not eliminate rebates or the ability for market participants to earn rebates, but rather incorporates an additional way to earn rebates as noted herein.

The Exchange's proposal to amend Tier 6 of the NOM Market Maker Rebate to Add Liquidity in Penny Pilot Options is reasonable, equitable and not unfairly discriminatory for the reasons noted below.

---

<sup>9</sup> The dynamic rebate structure, consisting of a percentage of total industry customer equity and ETF option ADV, is similar for Customer and/or Professional Penny Pilot Options as well as for NOM Market Makers for similar products (e.g., Penny Pilot Options and Non-Penny Pilot Options). The Exchange notes that if a Participant qualifies for two tiers, the higher rebate will be paid in a given month.

<sup>10</sup> 15 U.S.C. 78f(b).

<sup>11</sup> 15 U.S.C. 78f(b)(4), (5).

The Exchange's proposal to adopt a new Tier 6 metric for Participants that add the highest level of NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month is equitable and not unfairly discriminatory because all eligible Participants that qualify for the additional Tier 6 NOM Market Maker Rebate to Add Liquidity metric will be uniformly paid the rebate.<sup>12</sup>

The Exchange would continue to incentivize Participants, with Tiers 1 through 6 NOM Market Maker Penny Pilot Options Rebates to Add Liquidity, as amended, to provide liquidity by paying specified rebates to those Participants that add NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options according to percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month. The proposed percentage metrics are dynamic in nature in that they reference total industry options contracts per day (rather than a static number of contracts per day)<sup>13</sup>, and thereby make the Rebate structure similar for Customers and/or

<sup>12</sup> The NOM Market Maker obligations and regulatory requirements remain unchanged. Pursuant to Chapter VII (Market Participants), Section 5 (Obligations of Market Makers), in registering as a market maker, an Options Participant commits himself to various obligations. Transactions of a Market Maker in its market making capacity must constitute a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and Market Makers should not make bids or offers or enter into transactions that are inconsistent with such course of dealings. Further, all Market Makers are designated as specialists on NOM for all purposes under the Act or rules thereunder. See Chapter VII, Section 5.

<sup>13</sup> See supra note 5.

Professionals as well as for NOM Market Makers for similar products (e.g., Penny Pilot Options and Non-Penny Pilot Options).<sup>14</sup>

In addition, the Exchange believes it is reasonable to continue to use percentage metrics keyed to industry customer equity and ETF option average ADV contracts per day in a month because that is a benchmark that Participants are comfortable with in respect to Customer and Professional liquidity. Moreover, the Exchange believes that industry customer volume is a fair metric because it does not have the periodic spikes that may occur due to floor trading. Because NOM is an electronic market place with no trading floor, the Exchange believes that an industry volume metric is fair and reasonable.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

The Exchange believes that adding an additional percentage eligibility metric in Tier 6 for Participants that bring the largest amount of liquidity should encourage Participants to direct additional NOM Market Maker order flow to the Exchange, and will dovetail with the existing metric in Tier 6.

Added liquidity benefits all market participants by providing more trading opportunities, which attracts market participants to the Exchange. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. The Exchange believes that encouraging Participants to add NOM Market Maker liquidity

---

<sup>14</sup> The Exchange notes that if a Participant qualifies for two tiers, the higher rebate will be paid.

creates competition among options exchanges because the Exchange believes that the rebates may cause market participants to select NOM as a venue to send order flow. The Exchange is continuing to offer rebates at specified percentage metrics for NOM Market Maker order flow being executed at the Exchange, which additional order flow should benefit other market participants.

The Exchange operates in a highly competitive market comprised of twelve U.S. options exchanges in which many sophisticated and knowledgeable market participants can readily and do send order flow to competing exchanges if they deem fee levels or rebate incentives at a particular exchange to be excessive or inadequate. These market forces support the Exchange belief that the rebate structure and tiers as amended are competitive with rebates and tiers in place on other exchanges. The Exchange believes that this competitive marketplace continues to impact the rebates present on the Exchange today and substantially influences the proposals set forth above.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

**Chapter XV Options Pricing**

**NASDAQ Options Market Participants may be subject to the Charges for Membership, Services and Equipment in the Rule 7000 Series as well as the fees in this Chapter XV. For purposes of assessing fees and paying rebates, the following references should serve as guidance.**

The term "**Customer**" or ("C") applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of broker or dealer or for the account of a "Professional" (as that term is defined in Chapter I, Section 1(a)(48)).

The term "**NOM Market Maker**" or ("M") is a Participant that has registered as a Market Maker on NOM pursuant to Chapter VII, Section 2, and must also remain in good standing pursuant to Chapter VII, Section 4. In order to receive NOM Market Maker pricing in all securities, the Participant must be registered as a NOM Market Maker in at least one security.

The term "**Non-NOM Market Maker**" or ("O") is a registered market maker on another options exchange that is not a NOM Market Maker. A Non-NOM Market Maker must append the proper Non-NOM Market Maker designation to orders routed to NOM.

The term "**Firm**" or ("F") applies to any transaction that is identified by a Participant for clearing in the Firm range at OCC.

The term "**Professional**" or ("P") means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Chapter I, Section 1(a)(48). All Professional orders shall be appropriately marked by Participants.

The term "**Broker-Dealer**" or ("B") applies to any transaction which is not subject to any of the other transaction fees applicable within a particular category.

The term "**Common Ownership**" shall mean Participants under 75% common ownership or control.

With respect to Chapter XV, Sections 2(1) and (2) the order that is received by the trading system first in time shall be considered an order adding liquidity and an order that trades against that order shall be considered an order removing liquidity.

**Sec. 1** No Change.

**Sec. 2 NASDAQ Options Market—Fees and Rebates**

The following charges shall apply to the use of the order execution and routing services of the NASDAQ Options Market for all securities.

**(1) Fees for Execution of Contracts on the NASDAQ Options Market**
