SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-75514; File No. SR-NASDAQ-2015-084]

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Modify NASDAQ Rule 7014(g) Concerning Rebates Available Under the NBBO Program

July 23, 2015.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on July 16, 2015, The NASDAQ Stock Market LLC ("NASDAQ" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of the Substance of the Proposed Rule Change

The Exchange proposes to amend NASDAQ Rule 7014(g) concerning rebates available under the NBBO Program. The Exchange will implement the new rebate on July 17, 2015.

The text of the proposed rule change is available on the Exchange's Web site at <http://nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

NASDAQ is proposing to add a new \$0.0004 per share executed credit in securities listed on NYSE, which would be available to any member that provides shares of liquidity in all securities through one or more of its Nasdaq Market Center MPIDs ("MPIDs") that represent 0.50% or more of Consolidated Volume³ during the month. The NBBO Program provides a per share executed rebate⁴ with respect to all other displayed orders (other than Designated Retail Orders, as defined in NASDAQ Rule 7018) in securities priced at \$1 or more per share that provide liquidity and establish the NBBO. Currently, NASDAQ offers a \$0.0002 per share executed credit to a member that either: (1) Executes shares of liquidity provided in all securities through one or more of its MPIDs that represents 0.475% or more of Consolidated Volume during the month; or (2) add [sic] NOM Market Maker liquidity, as defined in Chapter XV, Section 2 of the Nasdaq Options Market rules, in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month. Thus, the NBBO program provides an incentive to members to improve the quality of the market by rewarding members that provide significant market-improving order flow with a credit.

The proposed new rebate, which is provided in lieu of the current rebate, is designed to further improve the market by providing members with a higher credit as incentive to provide a greater level of Consolidated Volume to NASDAQ and to quote aggressively in Tape A securities. In this regard, the

³ Consolidated Volume is the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of a member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity. See Rule 7018. For purposes of the proposed tier, the Exchange will calculate Consolidated Volume during the first month that it is implemented based on only the day during that month that the rebate is available.

⁴ The rebate is provided in addition to any rebate or credit payable under NASDAQ Rule 7018(a) and the Investor Support Program ("ISP") and Qualified Market Maker ("QMM") Program under NASDAQ Rule 7014.

proposed new credit will apply to all other displayed orders (other than Designated Retail Orders, as defined in NASDAQ Rule 7018) in securities listed on NYSE ("Tape A") priced at \$1 or more per share that provide liquidity and establish the NBBO.

2. Statutory Basis

NASDAQ believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,⁵ in general, and with Sections 6(b)(4) and 6(b)(5) of the Act,⁶ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest; and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes that the proposed change to amend Rule 7014(g) is reasonable because it provides an opportunity for members that qualify to receive a rebate of \$0.0004 per share executed for all other displayed orders (other than Designated Retail Orders, as defined in Rule 7018) in Tape A securities priced at \$1 or more per share that provide liquidity and establish the NBBO.⁷ Thus the rebate provides incentive to members to provide aggressively priced orders in Tape A securities that improve the market by setting the NBBO. Requiring a higher level of Consolidated Volume than the lower \$0.0002 per share executed tier is consistent with incentivizing member to provide greater market improving activity in the form of Consolidated Volume in return for eligibility for a higher credit. The Exchange believes that it is reasonable to limit the higher credit to Tape A securities because it desires to improve the market on NASDAQ in Tape A securities in terms of setting the NBBO, which is currently

⁶ 15 U.S.C. 78f(b)(4) and (5).

⁷ This is similar to other programs originating from BATS Global Markets 2011 filing. See Securities Exchange Act Release No. 73967 (January 3, 2011), 80 FR 594 (January 7, 2011) (SR-BATS-2010-038).

not as robust as price setting in non-Tape A securities.

NASDAQ believes the proposed change is equitable and not unfairly discriminatory because the \$0.0004 per share executed rebate under the NBBO Program is available to all members on an equal basis and provides a rebate for activity that improves the Exchange's market quality through increased activity and by encouraging the setting of the NBBO. In this regard, the NBBO Program encourages higher levels of liquidity provision into the price discovery process and is consistent with the overall goals of enhancing market quality. Also, the Exchange believes that the qualification requirement for the new tier is equitable and not unfairly discriminatory because it represents an increased yet attainable level for members to achieve and to qualify for this higher rebate. In addition, the Exchange notes that the new eligibility standard for the tier, which requires a member to execute shares of liquidity provided in all securities through one or more of its MPIDs that represents 0.50% or more of Consolidated Volume during the month, represents a lower Consolidated Volume requirement than the QMM Program, which requires at least 0.70% of Consolidated Volume to qualify under the lowest credit tier.⁸ The Exchange believes the proposed qualification standard is equitable and not unfairly discriminatory because the NBBO Program rebates do not apply to all shares of liquidity provided, and thus the Consolidated Volume threshold is set lower.

B. Self-Regulatory Organization's Statement on Burden on Competition

NASDAQ does not believe that the proposed rule changes [sic] will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended.⁹ NASDAQ notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, NASDAQ must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their

⁸ See Rule 7014(e).

⁹ U.S.C. 78f(b)(8)

order routing practices, NASDAQ believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In this instance, NASDAQ is proposing to enhance the NBBO Program with an additional and higher rebate opportunity in Tape A securities in return for market improving participation. Consequently, the proposed changes do not impose a burden on competition because the proposed rebate, and incentive programs generally, are reflective of the need for exchanges to offer financial incentives to attract order flow and to let such financial incentives evolve in response to competition. Accordingly, while the Exchange does not believe that the proposed change will result in any burden on competition, if the change proposed herein are unattractive to market participants it is likely that NASDAQ will lose market share as a result.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.
