Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“Commission”) a proposal to amend the Market Quality Incentive Programs under Rule 7014 to: (i) change the qualification requirements of, and add an additional rebate to, the Qualified Market Maker Program; (ii) modify the maximum fee assessed for participation in the Exchange Opening and Closing Crosses, and extend the program to include participation in the Exchange Halt Cross, under the Lead Market Maker Program; and (iii) modify the requirements and rebates provided under the NBBO Program.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”) on July 1, 2015. No other action is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

T. Sean Bennett
Associate General Counsel
Nasdaq, Inc.
(301) 978-8499

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the Market Quality Incentive Programs under Rule 7014 to: (i) change the qualification requirements of, and add an additional rebate to, the Qualified Market Maker Program; (ii) modify the maximum fee assessed for participation in the Exchange Opening and Closing Crosses, and extend the program to include participation in the Exchange Halt Cross, under the Lead Market Maker Program; and (iii) modify the requirements and rebates provided under the NBBO Program.

Qualified Market Maker Program Changes

The Exchange is proposing three changes to the Qualified Market Maker (“QMM”) Program: (1) eliminate the requirement that only a Primary Nasdaq Market Center MPID (a “QMM MPID” for purposes of the QMM Program)³ may be used to qualify as a QMM under Rule 7014(d); (2) eliminate the restriction that the per share executed rebates and fees provided by the program are limited to a QMM MPID under Rule 7014(e); and (3) offer new rebates under Rule 7014(e) of the program, which will be offered in Tape C securities.⁴

The QMM Program provides incentives to Exchange market makers to make a significant contribution to market quality by providing liquidity at the NBBO in a large

³ See Rule 7014(d).

⁴ Tape C securities are those that are listed on the Exchange, Tape A securities are those that are listed on NYSE, and Tape B securities are those that are listed on exchanges other than Nasdaq or NYSE.

number of stocks for a significant portion of the day. Under Rule 7014(d), members must meet certain criteria to qualify as a QMM, such as not imposing burdens on the Exchange and its market participants that may be associated with excessive rates of entry of orders away from the inside and/or order cancellation.⁵

Under Rule 7014(e), the Exchange provides a rebate per share executed with respect to all other displayed Orders (other than Designated Retail Orders as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity and that are entered through a QMM MPID and were for securities listed on NYSE (“Tape A QMM Incentive”) or securities listed on exchanges other than the Exchange and NYSE (“Tape B QMM Incentive”) (both incentives are collectively described as the “QMM Incentives”).

The QMM Incentives have two tiers, Tier 1 and Tier 2, with Tier 2 having higher requirements and rebates than Tier 1. The requirements and rebates of the Tiers under both QMM Incentives are identical. To qualify under Tier 1, a QMM must execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent above 0.70% up to, and including, 0.90% of Consolidated Volume⁶ during the month. If a QMM qualifies under Tier 1, it will receive a \$0.0001 per share executed rebate in Tape A and Tape B securities, as described above. To

⁵ See Rule 7014(d)(1) – (3) for the QMM qualification requirements.

⁶ Consolidated Volume is the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of a member’s trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member’s trading activity. See Rule 7018.

qualify under Tier 2, a QMM must execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent above 0.90% of Consolidated Volume during the month. If a QMM qualifies under Tier 2, it will receive a \$0.0002 per share executed rebate in Tape A and Tape B securities, as described above.

Under Rule 7014(d), the Exchange also charges a fee of \$0.0030 per share executed for orders in Exchange-listed securities, and a fee of \$0.00295 per share executed for orders in securities listed on exchanges other than the Exchange, priced at \$1 or more per share that access liquidity on the Exchange and that are entered through a QMM MPID. To qualify for these fees, the QMM's volume of liquidity added through one or more of its MPIDs during the month (as a percentage Consolidated Volume) must not be less than 0.80%.

First, the Exchange is proposing to eliminate the requirement that only a Primary Nasdaq Market Center MPID may be used to qualify as a QMM under Rule 7014(d). By eliminating the requirement that a member may qualify only with its Primary Nasdaq Market Center MPID and allowing any MPID that the member may possess to qualify under the QMM Program, the Exchange is significantly broadening potential eligibility for the program among members.

Second, the Exchange is proposing to eliminate the requirement that the rebates and fees applied to a member under the program apply only to orders sent through a QMM MPID. Currently, the Exchange limits the rebates and fees provided by the program to orders entered through a QMM MPID. As noted above, a QMM MPID is defined as a qualifying QMM's Primary Nasdaq Market Center MPID. By allowing all MPIDs to receive the rebates and fees of the QMM Program that a QMM qualifies for,

the Exchange is increasing the incentive to members to provide Consolidated Volume sufficient to qualify under the tiers of the program.

Third, the Exchange is proposing to make Tape C securities eligible for rebates under the QMM Program. The Exchange is creating a new “Tape C QMM Incentive,” which will have a Tier 1 and Tier 2 that are identical to those of the Tape A and Tape B QMM Incentives, as described above. The Tape C QMM Incentive, like the other incentives under the QMM Program, is designed to reward QMMs, in the form of a rebate, for providing significant levels of Consolidated Volume. Extending such rewards, to a qualifying QMM’s Tape C displayed orders (other than a Designated Retail Order, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity may lead to greater participation in the program and, in turn, improve market quality for all market participants.

Lead Market Maker Program Changes

The Exchange is proposing to amend Rule 7014(f)(4): (1) to expand applicability under the Lead Market Maker Program (“LMM Program”) of a maximum fee on participation in the Exchange Opening Cross⁷ and Closing Cross⁸ to include participation in a Halt Cross,⁹ and (2) to lower the maximum fee assessed for participation those Crosses.

The LMM Program is designed to provide incentive to market makers to make markets in certain exchange-traded products (“ETPs”). To achieve this, the Exchange

⁷ See Rule 4752.

⁸ See Rule 4753.

⁹ See Rule 4754.

provides credits and reduced fees to a designated LMM for execution of a Qualified Security. Under Rule 7014(f)(1), a security may be designated as a “Qualified Security” if: (A) it is an ETP listed on the Exchange pursuant to Exchange Rules 5705, 5710, 5720, 5735, or 5745; and (B) it has at least one LMM.

An LMM is a registered Exchange market maker for a Qualified Security that has committed to maintain minimum performance standards, which are based on certain percentages of time that the LMM is quoting at the national best bid and offer (“NBBO”). Currently, the Exchange has three performance criteria tiers based on the time that an LMM is quoting at the NBBO: (1) above 15% to 20%; (2) above 20% to 50%; and (3) above 50%. For each tier, the Exchange provides rebates for displayed liquidity and a maximum fee for participation in the Opening and Closing Crosses.

First, the Exchange is proposing to include activity in the Exchange Halt Cross in the maximum fee provided by the program. Currently, the Exchange provides a maximum fee for participation in the Exchange’s Opening and Closing Crosses. Under Rule 7018, a Participant,¹⁰ including an LMM, is assessed a per share executed charge of \$0.0015 to \$0.0008 for participation in the Opening and Closing Crosses.¹¹ Under the LMM Program, the Exchange provides a maximum fee an LMM will pay for participation in the Opening and Closing Crosses of \$0.0010 per executed share if the LMM is at the NBBO above 15% to 20% of the time.¹² If an LMM is at the NBBO in

¹⁰ As defined by Rule 4701(c).

¹¹ See Rule 7018(d) and (e).

¹² An LMM will be assessed the charge under Rules 7018(d) or (e) if it is lower than the maximum charge it qualifies for under Rule 7014(f)(4). For example, if an LMM was eligible to receive a maximum charge of \$0.0010 per share executed under the first tier of Rule 7014(f)(4), but also qualified for a charge of \$0.0008

excess of 20% of the time, it is not assessed any per executed share fee for participation in the Opening and Closing Crosses.

The Exchange is proposing to extend the fee limits under the this tier to include participation in the Halt Cross, which currently has a fee of \$0.0010 per executed share.¹³

Second, the Exchange is proposing to reduce the maximum fee provided for participation in the Crosses under Rule 7014(f)(4) if the LMM is at the NBBO above 15% to 20% of the time from \$0.0010 per executed share to \$0.0005 per executed share.

NBBO Program Changes

The Exchange is proposing to make three changes to the NBBO Program: (1) eliminate the \$0.0002 per share executed rebate tier provided under the program; (2) decrease the \$0.0004 per share executed rebate tier and modify the criteria required to receive it; (3) modify the criteria of the \$0.0001 per share executed rebate tier and increase the rebate to \$0.0002 per share executed.

The NBBO program provides incentive to members to improve the quality of the market by rewarding members that provide significant market-improving order flow with a rebate.

The Exchange provides a \$0.0004 per share executed rebate in securities listed on NYSE and a \$0.0002 per share executed rebate in securities listed on exchanges other than the Exchange or NYSE, which are available to any member that provides shares of liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.50% or more of Consolidated Volume during the month; or (2) add NOM

per share executed in the closing cross under Tier A of Rule 7018(d)(2), the LMM would receive the lower charge under Rule 7018(d)(2).

¹³

See Rule 7018(f).

Market Maker liquidity, as defined in Chapter XV, Section 2 of the Nasdaq Options Market rules, in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

The Exchange also provides members that qualify for the NBBO Program a \$0.0001 per share executed rebate¹⁴ with respect to all other displayed orders (other than Designated Retail Orders, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity if the member qualifies for the \$0.0004 or \$0.0002 per share executed rebate tiers, and has a ratio of at least 25% NBBO liquidity provided¹⁵ to liquidity provided during the month.

First, the Exchange is proposing to no longer offer the \$0.0002 per share executed rebate provided under the rule in Tape C securities. Second, the Exchange is proposing to reduce the remaining \$0.0004 per share executed credit provided in Tape A and B securities to \$0.0002 per share executed, delete the NOM Market Maker liquidity-based eligibility criteria requirement under the rebate tier, and modify the remaining Consolidated Volume-based criteria by increasing the level of Consolidated Volume provided during the month from 0.5% to 1.0%.

Third, the Exchange is proposing to modify the level of rebate provided and the qualification criteria of the \$0.0001 per share executed rebate the Exchange provides to members that qualify for the NBBO Program, and have a ratio of at least 25% NBBO liquidity provided to liquidity provided during the month. The Exchange is also

¹⁴ The rebate is provided in addition to any rebate or credit payable under Rule 7018(a) and the Investor Support, QMM, and NBBO Programs under Rule 7014.

¹⁵ NBBO liquidity provided means liquidity provided from orders (other than Designated Retail Orders, as defined in Rule 7018) that establish the NBBO, and displayed a quantity of at least one round lot at the time of execution.

proposing to require that a member execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represents 0.5% or more of Consolidated Volume during the month.

The Exchange notes that it has incorporated one of the qualifying criteria required to receive the \$0.0004 and \$0.0002 per share executed rebates, into this rebate tier. The Exchange is also proposing to increase the rebate from \$0.0001 per share executed to \$0.0002 per share executed.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁶ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁷ in particular, in that it provides for the equitable allocation of reasonable dues, fees, and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Qualified Market Maker Program Changes

The Exchange believes that the proposed changes to the QMM Program are reasonable because they increase the incentives provided by the program. Eliminating the restriction that only Primary MPIDs be used to qualify for the program will provide greater opportunity to members to qualify and participate in the program.

Likewise, eliminating the restriction that the per share executed rebates provided by the program are limited to liquidity provided through a QMM MPID is reasonable

¹⁶ 15 U.S.C. 78f(b).

¹⁷ 15 U.S.C. 78f(b)(4) and (5).

because it will expand the number of MPIDs that receive the rebate. In turn, it will provide greater opportunity for improvements to market quality. Making Tape C securities eligible for rebates under the QMM Program is reasonable because it is reflective of the Exchange's desire to improve market quality on the Exchange generally through use of rebates. In this case, the Exchange is proposing to extend the rebates it provides under the program to include the securities of all three Tapes.

As noted above, the QMM Program provides incentives to a member to make a significant contribution to market quality by providing liquidity at the NBBO in a large number of stocks for a significant portion of the day. The Exchange believes that expanding the program to include Tape C securities will make the program more attractive to members and promote its goal of improving market quality.

The Exchange also believes that eliminating the restriction that only Primary MPIDs be used to qualify for the program is an equitable allocation and is not unfairly discriminatory because it will allow more members the opportunity to qualify for the program. Furthermore, eliminating the restriction that the rebates provided by the QMM Program only apply to qualifying orders entered through a QMM MPID is an equitable allocation and is not unfairly discriminatory because it will apply to all members that qualify as QMMs under the program.

In addition, including Tape C securities as eligible for rebates under the QMM Program is an equitable allocation and is not unfairly discriminatory because the Exchange will apply the same fee to all similarly situated members. In this regard, the proposed change to the rule is an equitable allocation and is not unfairly discriminatory

because the rebates are provided uniformly to all QMMs that qualify for the rebates and all QMMs have an equal opportunity to earn the discounted fee for accessing liquidity.

Moreover, the Exchange believes that providing qualifying QMMs rebates in Tape C securities is equitable and not unfairly discriminatory because, in return for the rebates, QMMs are providing a significant contribution to market quality by providing displayed liquidity, to the benefit of all market participants.

Lead Market Maker Program Changes

The Exchange believes that the proposed changes to the LMM Program are reasonable because it is reflective of the Exchange's desire to improve market quality through the use of reduced fees. As noted above, the LMM Program is designed to provide incentive to LMMs to make markets in certain ETPs.

The Exchange is proposing to provide further incentive to LMMs to quote at the NBBO a significant percentage of the time by extending the maximum fee for participation in the Opening and Closing Crosses to now include the Halt Cross.

Similarly, the Exchange is providing further incentive to LMMs to provide liquidity at the NBBO by decreasing the maximum fee the LMM will be assessed for participation in the Crosses under the lowest tier. Thus, the proposed changes are reflective of the Exchange's efforts to incentivize market participants to improve market quality.

The Exchange believes that the proposed changes to the LMM Program are an equitable allocation and are not unfairly discriminatory because the Exchange will apply the same fee to all similarly situated members. Specifically, the Exchange will provide the same maximum fee for participation in all of the Crosses, to the extent the LMM qualifies under one of the tiers. Last, the Exchange believes that providing LMMs a

maximum fee in the Opening, Closing, and Halt Crosses is equitable and not unfairly discriminatory because, in return for the reduced fees, LMMs are providing beneficial displayed liquidity to the benefit of all market participants.

NBBO Program Changes

The Exchange believes that proposed changes to the NBBO Program are reasonable because they more narrowly focus the program, which the Exchange believes may increase participation in the program. As noted above, the NBBO program provides incentives to members to improve the quality of the market by rewarding members that provide significant market-improving order flow with a rebate.

Currently, to qualify for \$0.0004 and \$0.0002 per share executed NBBO rebates, members must execute shares in of liquidity through one or more of its MPIDs that represents 0.5% or more of Consolidated Volume during the month, or add NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

The Exchange believes it is reasonable to eliminate the Tape C rebate, decrease the \$0.0004 per share executed rebate provided in Tape A and B securities to \$0.0002 per share executed, and modify the qualification criteria because doing so will allow the Exchange to increase the other rebates under the program, which will better align the program with improving the NBBO.

The Exchange also believes that eliminating the NOM Market Maker liquidity-based eligibility criteria under the rule and modifying the remaining Consolidated Volume-based criteria by increasing the level of Consolidated Volume required to receive the rebate from 0.5% to 1.0% is reasonable because the Exchange is more narrowly focusing the requirement on overall participation in the markets in contrast to

liquidity provided only on NOM. The NOM Market Maker liquidity-based eligibility criteria have not been effective at providing an incentive to members to participate in the program.

The Exchange believes that it is reasonable to include a requirement that a member must execute shares in of liquidity through one or more of its MPIDs that represents 0.5% or more of Consolidated Volume during the month in order to receive the \$0.0002 per share executed rebate under the amended NBBO Program for all other displayed orders is reasonable because it is an existing requirement to receive the existing \$0.0001 per share executed fee under the program.

Thus, members qualifying under the program must not only improve the NBBO significantly, but also provide improvement to the market overall by contributing a significant level of Consolidated Volume, which is consistent with the current requirements to receive the rebate under the NBBO Program. The Exchange believes that increasing the rebate from \$0.0001 to \$0.0002 per share executed will provide a greater incentive to members to participate in the program.

The Exchange believes the proposed changes to the NBBO Program are equitable and not unfairly discriminatory because the NBBO Program rebates and their qualification criteria will apply uniformly to all similarly situated members. Members that elect to provide the levels of Consolidated Volume required by the amended rule, and in the case of the proposed \$0.0002 per share executed rebate establish the NBBO with a ratio of at least 25%, will receive the amended rebates.

Last, although elimination of the NOM Market Maker based criteria may impact members that are also market makers on NOM, the revised Consolidated Volume based

criteria will apply to all members, not only those participating on NOM as market makers.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the proposed changes to the fees and rebates provided to member firms under the market quality incentive programs of Rule 7014 do not impose a burden on competition because the Exchange's execution services are completely voluntary and subject to extensive competition both from other exchanges and from off-exchange venues.

Rather than placing a burden on competition, the proposed fees and rebates are reflective of the fierce competition among market venues to attract order flow, including displayed liquidity, to the benefit of all market participants. All of the proposed changes to the incentive programs under Rule 7014 are designed to improve their effectiveness in

achieving their stated purposes. If any of the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result.

Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁸ The Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

Not applicable.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

1. Notice of proposed rule for publication in the Federal Register.

5. Text of the proposed rule change.

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION

(Release No. _____ ; File No. SR-NASDAQ-2016-032)

March __, 2016

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend the Market Quality Incentive Programs under Rule 7014

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹, and Rule 19b-4 thereunder,² notice is hereby given that on March 1, 2016, The NASDAQ Stock Market LLC (“Nasdaq” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to: (i) change the qualification requirements of, and add an additional rebate to, the Qualified Market Maker Program; (ii) modify the maximum fee assessed for participation in the Exchange Opening and Closing Crosses, and extend the program to include participation in the Exchange Halt Cross, under the Lead Market Maker Program; and (iii) modify the requirements and rebates provided under the NBBO Program.

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

The text of the proposed rule change is available on the Exchange's Website at <http://nasdaq.cchwallstreet.com>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Market Quality Incentive Programs under Rule 7014 to: (i) change the qualification requirements of, and add an additional rebate to, the Qualified Market Maker Program; (ii) modify the maximum fee assessed for participation in the Exchange Opening and Closing Crosses, and extend the program to include participation in the Exchange Halt Cross, under the Lead Market Maker Program; and (iii) modify the requirements and rebates provided under the NBBO Program.

Qualified Market Maker Program Changes

The Exchange is proposing three changes to the Qualified Market Maker ("QMM") Program: (1) eliminate the requirement that only a Primary Nasdaq Market

Center MPID (a “QMM MPID” for purposes of the QMM Program)³ may be used to qualify as a QMM under Rule 7014(d); (2) eliminate the restriction that the per share executed rebates and fees provided by the program are limited to a QMM MPID under Rule 7014(e); and (3) offer new rebates under Rule 7014(e) of the program, which will be offered in Tape C securities.⁴

The QMM Program provides incentives to Exchange market makers to make a significant contribution to market quality by providing liquidity at the NBBO in a large number of stocks for a significant portion of the day. Under Rule 7014(d), members must meet certain criteria to qualify as a QMM, such as not imposing burdens on the Exchange and its market participants that may be associated with excessive rates of entry of orders away from the inside and/or order cancellation.⁵

Under Rule 7014(e), the Exchange provides a rebate per share executed with respect to all other displayed Orders (other than Designated Retail Orders as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity and that are entered through a QMM MPID and were for securities listed on NYSE (“Tape A QMM Incentive”) or securities listed on exchanges other than the Exchange and NYSE (“Tape B QMM Incentive”) (both incentives are collectively described as the “QMM Incentives”).

³ See Rule 7014(d).

⁴ Tape C securities are those that are listed on the Exchange, Tape A securities are those that are listed on NYSE, and Tape B securities are those that are listed on exchanges other than Nasdaq or NYSE.

⁵ See Rule 7014(d)(1) – (3) for the QMM qualification requirements.

The QMM Incentives have two tiers, Tier 1 and Tier 2, with Tier 2 having higher requirements and rebates than Tier 1. The requirements and rebates of the Tiers under both QMM Incentives are identical. To qualify under Tier 1, a QMM must execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent above 0.70% up to, and including, 0.90% of Consolidated Volume⁶ during the month. If a QMM qualifies under Tier 1, it will receive a \$0.0001 per share executed rebate in Tape A and Tape B securities, as described above. To qualify under Tier 2, a QMM must execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent above 0.90% of Consolidated Volume during the month. If a QMM qualifies under Tier 2, it will receive a \$0.0002 per share executed rebate in Tape A and Tape B securities, as described above.

Under Rule 7014(d), the Exchange also charges a fee of \$0.0030 per share executed for orders in Exchange-listed securities, and a fee of \$0.00295 per share executed for orders in securities listed on exchanges other than the Exchange, priced at \$1 or more per share that access liquidity on the Exchange and that are entered through a QMM MPID. To qualify for these fees, the QMM's volume of liquidity added through one or more of its MPIDs during the month (as a percentage Consolidated Volume) must not be less than 0.80%.

⁶ Consolidated Volume is the total consolidated volume reported to all consolidated transaction reporting plans by all exchanges and trade reporting facilities during a month in equity securities, excluding executed orders with a size of less than one round lot. For purposes of calculating Consolidated Volume and the extent of a member's trading activity, expressed as a percentage of or ratio to Consolidated Volume, the date of the annual reconstitution of the Russell Investments Indexes shall be excluded from both total Consolidated Volume and the member's trading activity. See Rule 7018.

First, the Exchange is proposing to eliminate the requirement that only a Primary Nasdaq Market Center MPID may be used to qualify as a QMM under Rule 7014(d). By eliminating the requirement that a member may qualify only with its Primary Nasdaq Market Center MPID and allowing any MPID that the member may possess to qualify under the QMM Program, the Exchange is significantly broadening potential eligibility for the program among members.

Second, the Exchange is proposing to eliminate the requirement that the rebates and fees applied to a member under the program apply only to orders sent through a QMM MPID. Currently, the Exchange limits the rebates and fees provided by the program to orders entered through a QMM MPID. As noted above, a QMM MPID is defined as a qualifying QMM's Primary Nasdaq Market Center MPID. By allowing all MPIDs to receive the rebates and fees of the QMM Program that a QMM qualifies for, the Exchange is increasing the incentive to members to provide Consolidated Volume sufficient to qualify under the tiers of the program.

Third, the Exchange is proposing to make Tape C securities eligible for rebates under the QMM Program. The Exchange is creating a new "Tape C QMM Incentive," which will have a Tier 1 and Tier 2 that are identical to those of the Tape A and Tape B QMM Incentives, as described above. The Tape C QMM Incentive, like the other incentives under the QMM Program, is designed to reward QMMs, in the form of a rebate, for providing significant levels of Consolidated Volume. Extending such rewards, to a qualifying QMM's Tape C displayed orders (other than a Designated Retail Order, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity

may lead to greater participation in the program and, in turn, improve market quality for all market participants.

Lead Market Maker Program Changes

The Exchange is proposing to amend Rule 7014(f)(4): (1) to expand applicability under the Lead Market Maker Program (“LMM Program”) of a maximum fee on participation in the Exchange Opening Cross⁷ and Closing Cross⁸ to include participation in a Halt Cross,⁹ and (2) to lower the maximum fee assessed for participation those Crosses.

The LMM Program is designed to provide incentive to market makers to make markets in certain exchange-traded products (“ETPs”). To achieve this, the Exchange provides credits and reduced fees to a designated LMM for execution of a Qualified Security. Under Rule 7014(f)(1), a security may be designated as a “Qualified Security” if: (A) it is an ETP listed on the Exchange pursuant to Exchange Rules 5705, 5710, 5720, 5735, or 5745; and (B) it has at least one LMM.

An LMM is a registered Exchange market maker for a Qualified Security that has committed to maintain minimum performance standards, which are based on certain percentages of time that the LMM is quoting at the national best bid and offer (“NBBO”). Currently, the Exchange has three performance criteria tiers based on the time that an LMM is quoting at the NBBO: (1) above 15% to 20%; (2) above 20% to 50%; and (3)

⁷ See Rule 4752.

⁸ See Rule 4753.

⁹ See Rule 4754.

above 50%. For each tier, the Exchange provides rebates for displayed liquidity and a maximum fee for participation in the Opening and Closing Crosses.

First, the Exchange is proposing to include activity in the Exchange Halt Cross in the maximum fee provided by the program. Currently, the Exchange provides a maximum fee for participation in the Exchange's Opening and Closing Crosses. Under Rule 7018, a Participant,¹⁰ including an LMM, is assessed a per share executed charge of \$0.0015 to \$0.0008 for participation in the Opening and Closing Crosses.¹¹ Under the LMM Program, the Exchange provides a maximum fee an LMM will pay for participation in the Opening and Closing Crosses of \$0.0010 per executed share if the LMM is at the NBBO above 15% to 20% of the time.¹² If a LMM is at the NBBO in excess of 20% of the time, it is not assessed any per executed share fee for participation in the Opening and Closing Crosses.

The Exchange is proposing to extend the fee limits under the this tier to include participation in the Halt Cross, which currently has a fee of \$0.0010 per executed share.¹³

Second, the Exchange is proposing to reduce the maximum fee provided for participation in the Crosses under Rule 7014(f)(4) if the LMM is at the NBBO above 15% to 20% of the time from \$0.0010 per executed share to \$0.0005 per executed share.

¹⁰ As defined by Rule 4701(c).

¹¹ See Rule 7018(d) and (e).

¹² An LMM will be assessed the charge under Rules 7018(d) or (e) if it is lower than the maximum charge it qualifies for under Rule 7014(f)(4). For example, if an LMM was eligible to receive a maximum charge of \$0.0010 per share executed under the first tier of Rule 7014(f)(4), but also qualified for a charge of \$0.0008 per share executed in the closing cross under Tier A of Rule 7018(d)(2), the LMM would receive the lower charge under Rule 7018(d)(2).

¹³ See Rule 7018(f).

NBBO Program Changes

The Exchange is proposing to make three changes to the NBBO Program: (1) eliminate the \$0.0002 per share executed rebate tier provided under the program; (2) decrease the \$0.0004 per share executed rebate tier and modify the criteria required to receive it; (3) modify the criteria of the \$0.0001 per share executed rebate tier and increase the rebate to \$0.0002 per share executed.

The NBBO program provides incentive to members to improve the quality of the market by rewarding members that provide significant market-improving order flow with a rebate.

The Exchange provides a \$0.0004 per share executed rebate in securities listed on NYSE and a \$0.0002 per share executed rebate in securities listed on exchanges other than the Exchange or NYSE, which are available to any member that provides shares of liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.50% or more of Consolidated Volume during the month; or (2) add NOM Market Maker liquidity, as defined in Chapter XV, Section 2 of the Nasdaq Options Market rules, in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

The Exchange also provides members that qualify for the NBBO Program a \$0.0001 per share executed rebate¹⁴ with respect to all other displayed orders (other than Designated Retail Orders, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity if the member qualifies for the \$0.0004 or \$0.0002 per share

¹⁴ The rebate is provided in addition to any rebate or credit payable under Rule 7018(a) and the Investor Support, QMM, and NBBO Programs under Rule 7014.

executed rebate tiers, and has a ratio of at least 25% NBBO liquidity provided¹⁵ to liquidity provided during the month.

First, the Exchange is proposing to no longer offer the \$0.0002 per share executed rebate provided under the rule in Tape C securities. Second, the Exchange is proposing to reduce the remaining \$0.0004 per share executed credit provided in Tape A and B securities to \$0.0002 per share executed, delete the NOM Market Maker liquidity-based eligibility criteria requirement under the rebate tier, and modify the remaining Consolidated Volume-based criteria by increasing the level of Consolidated Volume provided during the month from 0.5% to 1.0%.

Third, the Exchange is proposing to modify the level of rebate provided and the qualification criteria of the \$0.0001 per share executed rebate the Exchange provides to members that qualify for the NBBO Program, and have a ratio of at least 25% NBBO liquidity provided to liquidity provided during the month. The Exchange is also proposing to require that a member execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represents 0.5% or more of Consolidated Volume during the month.

The Exchange notes that it has incorporated one of the qualifying criteria required to receive the \$0.0004 and \$0.0002 per share executed rebates, into this rebate tier. The Exchange is also proposing to increase the rebate from \$0.0001 per share executed to \$0.0002 per share executed

¹⁵ NBBO liquidity provided means liquidity provided from orders (other than Designated Retail Orders, as defined in Rule 7018) that establish the NBBO, and displayed a quantity of at least one round lot at the time of execution.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁶ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹⁷ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility or system which the Exchange operates or controls, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

Qualified Market Maker Program Changes

The Exchange believes that the proposed changes to the QMM Program are reasonable because they increase the incentives provided by the program. Eliminating the restriction that only Primary MPIDs be used to qualify for the program will provide greater opportunity to members to qualify and participate in the program.

Likewise, eliminating the restriction that the per share executed rebates provided by the program are limited to liquidity provided through a QMM MPID is reasonable because it will expand the number of MPIDs that receive the rebate. In turn, it will provide greater opportunity for improvements to market quality. Making Tape C securities eligible for rebates under the QMM Program is reasonable because it is reflective of the Exchange's desire to improve market quality on the Exchange generally through use of rebates. In this case, the Exchange is proposing to extend the rebates it provides under the program to include the securities of all three Tapes.

¹⁶ 15 U.S.C. 78f(b).

¹⁷ 15 U.S.C. 78f(b)(4) and (5).

As noted above, the QMM Program provides incentives to a member to make a significant contribution to market quality by providing liquidity at the NBBO in a large number of stocks for a significant portion of the day. The Exchange believes that expanding the program to include Tape C securities will make the program more attractive to members and promote its goal of improving market quality.

The Exchange also believes that eliminating the restriction that only Primary MPIDs be used to qualify for the program is an equitable allocation and is not unfairly discriminatory because it will allow more members the opportunity to qualify for the program. Furthermore, eliminating the restriction that the rebates provided by the QMM Program only apply to qualifying orders entered through a QMM MPID is an equitable allocation and is not unfairly discriminatory because it will apply to all members that qualify as QMMs under the program.

In addition, including Tape C securities as eligible for rebates under the QMM Program is an equitable allocation and is not unfairly discriminatory because the Exchange will apply the same fee to all similarly situated members. In this regard, the proposed change to the rule is an equitable allocation and is not unfairly discriminatory because the rebates are provided uniformly to all QMMs that qualify for the rebates and all QMMs have an equal opportunity to earn the discounted fee for accessing liquidity.

Moreover, the Exchange believes that providing qualifying QMMs rebates in Tape C securities is equitable and not unfairly discriminatory because, in return for the rebates, QMMs are providing a significant contribution to market quality by providing displayed liquidity, to the benefit of all market participants.

Lead Market Maker Program Changes

The Exchange believes that the proposed changes to the LMM Program are reasonable because it is reflective of the Exchange's desire to improve market quality through the use of reduced fees. As noted above, the LMM Program is designed to provide incentive to LMMs to make markets in certain ETPs.

The Exchange is proposing to provide further incentive to LMMs to quote at the NBBO a significant percentage of the time by extending the maximum fee for participation in the Opening and Closing Crosses to now include the Halt Cross.

Similarly, the Exchange is providing further incentive to LMMs to provide liquidity at the NBBO by decreasing the maximum fee the LMM will be assessed for participation in the Crosses under the lowest tier. Thus, the proposed changes are reflective of the Exchange's efforts to incentivize market participants to improve market quality.

The Exchange believes that the proposed changes to the LMM Program are an equitable allocation and are not unfairly discriminatory because the Exchange will apply the same fee to all similarly situated members. Specifically, the Exchange will provide the same maximum fee for participation in all of the Crosses, to the extent the LMM qualifies under one of the tiers. Last, the Exchange believes that providing LMMs a maximum fee in the Opening, Closing, and Halt Crosses is equitable and not unfairly discriminatory because, in return for the reduced fees, LMMs are providing beneficial displayed liquidity to the benefit of all market participants.

NBBO Program Changes

The Exchange believes that proposed changes to the NBBO Program are reasonable because they more narrowly focus the program, which the Exchange believes

may increase participation in the program. As noted above, the NBBO program provides incentives to members to improve the quality of the market by rewarding members that provide significant market-improving order flow with a rebate.

Currently, to qualify for \$0.0004 and \$0.0002 per share executed NBBO rebates, members must execute shares in of liquidity through one or more of its MPIDs that represents 0.5% or more of Consolidated Volume during the month, or add NOM Market Maker liquidity in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.

The Exchange believes it is reasonable to eliminate the Tape C rebate, decrease the \$0.0004 per share executed rebate provided in Tape A and B securities to \$0.0002 per share executed, and modify the qualification criteria because doing so will allow the Exchange to increase the other rebates under the program, which will better align the program with improving the NBBO.

The Exchange also believes that eliminating the NOM Market Maker liquidity-based eligibility criteria under the rule and modifying the remaining Consolidated Volume-based criteria by increasing the level of Consolidated Volume required to receive the rebate from 0.5% to 1.0% is reasonable because the Exchange is more narrowly focusing the requirement on overall participation in the markets in contrast to liquidity provided only on NOM. The NOM Market Maker liquidity-based eligibility criteria have not been effective at providing an incentive to members to participate in the program.

The Exchange believes that it is reasonable to include a requirement that a member must execute shares in of liquidity through one or more of its MPIDs that

represents 0.5% or more of Consolidated Volume during the month in order to receive the \$0.0002 per share executed rebate under the amended NBBO Program for all other displayed orders is reasonable because it is an existing requirement to receive the existing \$0.0001 per share executed fee under the program.

Thus, members qualifying under the program must not only improve the NBBO significantly, but also provide improvement to the market overall by contributing a significant level of Consolidated Volume, which is consistent with the current requirements to receive the rebate under the NBBO Program. The Exchange believes that increasing the rebate from \$0.0001 to \$0.0002 per share executed will provide a greater incentive to members to participate in the program.

The Exchange believes the proposed changes to the NBBO Program are equitable and not unfairly discriminatory because the NBBO Program rebates and their qualification criteria will apply uniformly to all similarly situated members. Members that elect to provide the levels of Consolidated Volume required by the amended rule, and in the case of the proposed \$0.0002 per share executed rebate establish the NBBO with a ratio of at least 25%, will receive the amended rebates.

Last, although elimination of the NOM Market Maker based criteria may impact members that are also market makers on NOM, the revised Consolidated Volume based criteria will apply to all members, not only those participating on NOM as market makers

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if

they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In this instance, the proposed changes to the fees and rebates provided to member firms under the market quality incentive programs of Rule 7014 do not impose a burden on competition because the Exchange's execution services are completely voluntary and subject to extensive competition both from other exchanges and from off-exchange venues.

Rather than placing a burden on competition, the proposed fees and rebates are reflective of the fierce competition among market venues to attract order flow, including displayed liquidity, to the benefit of all market participants. All of the proposed changes to the incentive programs under Rule 7014 are designed to improve their effectiveness in achieving their stated purposes. If any of the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result.

Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁸

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2016-032 on the subject line.

¹⁸ 15 U.S.C. 78s(b)(3)(A)(ii).

Paper comments:

- Send paper comments in triplicate to Brent J. Fields, Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2016-032. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-NASDAQ-2016-032 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.¹⁹

Robert W. Errett
Deputy Secretary

EXHIBIT 5

Deleted text is [bracketed]. New text is underlined.

The NASDAQ Stock Market Rules

* * * * *

7014. Market Quality Incentive Programs

* * * * *

Qualified Market Maker (“QMM”) Program

(d) A member may be designated as a QMM [with respect to its Primary Nasdaq Market Center MPID (a “QMM MPID”)]if:

(1) No change.

(2) through [such]any single Nasdaq Market Center MPID the member quotes at the NBBO at least 25% of the time during regular market hours in an average of at least 1,000 securities per day during the month. For purposes of this rule, a member MPID is considered to be quoting at the NBBO if it has a displayed order (other than a Designated Retail Order) at either the national best bid or the national best offer or both the national best bid and offer. On a daily basis, NASDAQ will determine the number of securities in which the member satisfied the 25% NBBO requirement. To qualify for QMM designation, the MPID must meet the requirement for an average of 1,000 securities per day over the course of the month. If a member seeking to be designated as a QMM terminates the use of one MPID and simultaneously commences use of another MPID during the course of a month, it may aggregate activity on the two MPIDs for purposes of determining its eligibility as a QMM.

(3) No change.

(e) Nasdaq will provide a rebate per share executed (as defined in the below table) with respect to all other displayed orders (other than Designated Retail Orders, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity [and that are entered through a QMM MPID]and were for securities listed on NYSE (“Tape A QMM Incentive”), [or]securities listed on exchanges other than Nasdaq and NYSE (“Tape B QMM Incentive”), or securities listed on Nasdaq (“Tape C QMM Incentive”). Such rebate will be in addition to any rebate payable under Rule 7018(a):

	QMM Tiers	Tape A QMM Incentive	Tape B QMM Incentive	<u>Tape C QMM Incentive</u>
Tier 1	QMM executes	\$0.0001	\$0.0001	<u>\$0.0001</u>

shares of
liquidity
provided in all
securities
through one or
more of its
Nasdaq Market
Center MPIDs
that represent
above 0.70% up
to, and including,
0.90% of
Consolidated
Volume during
the month

Tier 2	QMM executes shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represent above 0.90% of Consolidated Volume during the month	\$0.0002	\$0.0002	<u>\$0.0002</u>
--------	---	----------	----------	-----------------

If a QMM also participates in the ISP, NASDAQ will pay the greater of any applicable credit under the ISP or the above listed additional rebate, but not both.

NASDAQ will charge a QMM a fee of \$0.0030 per share executed for orders in NASDAQ-listed securities priced at \$1 or more per share that access liquidity on the NASDAQ Market Center[and that are entered through a QMM MPID], and charge a QMM a fee of \$0.00295 per share executed for orders in securities listed on exchanges other than NASDAQ priced at \$1 or more per share that access liquidity on the NASDAQ Market Center[and that are entered through a QMM MPID]; provided, however, that the QMM's volume of liquidity added through one or more of its Nasdaq Market Center MPIDs during the month (as a percentage of Consolidated Volume) is not less than 0.80%.

Lead Market Maker ("LMM") Program

(f) The following fees and rebates discussed in this section shall apply to transactions in a Qualified Security by one of its Lead Market Makers in lieu of fees and rebates provided under Rules 7018 and 7014. If the LMM qualifies for a lower fee under Rule 7018 than the fees outlined in the LMM Program the lower fee from Rule 7018 shall apply.

For purposes of this paragraph:

- (1) A security may be designated as a “Qualified Security” if:
 - (A) it is an exchange-traded product listed on Nasdaq pursuant to Nasdaq Rules 5705, 5710, 5720, 5735, or 5745;
 - (B) it has at least one Lead Market Maker.
- (2) A “Lead Market Maker” or “LMM” is a registered Nasdaq market maker for a Qualified Security that has committed to maintain minimum performance standards. A LMM shall be selected by Nasdaq based on factors including, but not limited to, experience with making markets in exchange-traded products, adequacy of capital, willingness to promote Nasdaq as a marketplace, issuer preference, operational capacity, support personnel, and history of adherence to Nasdaq rules and securities laws. Nasdaq may limit the number of LMMs in a security, or modify a previously established limit, upon prior written notice to members.
- (3) If a LMM does not meet the performance measurements under paragraph (4) of this rule for a given month, fees and credits will revert to the normal schedule under 7018(a). If a LMM does not meet the stated performance measurements for 3 out of the past 4 months, the LMM is subject to forfeit of LMM status for that Qualified Security, at NASDAQ’s discretion. A LMM must provide 5 days written notice if it wishes to withdraw its registration in a Qualified Security, unless it is also withdrawing as a market maker in the Qualified Security.
- (4) Below are the performance criteria related to the specific fees and rebates defined below:

Performance Criteria		Displayed Liquidity Rebate (for executions \$1 per share and above)	Displayed Liquidity Rebate (for executions less than \$1 per share)	<u>Halt Cross, Opening Cross and Closing Cross (maximum fee)</u>
Percent of time at the national best	Above 15% to	\$0.0040 per executed share	\$0.0000 per executed share	\$0.0005[10] per executed share

bid (best offer) 20%
 (“NBBO”)

Percent of time at the NBBO	Above 20% to 50%	\$0.0043 per executed share	\$0.0000 per executed share	\$0.0000 per executed share
-----------------------------	------------------	-----------------------------	-----------------------------	-----------------------------

Percent of time at the NBBO	Above 50%	\$0.0046 per executed share	\$0.0000 per executed share	\$0.0000 per executed share
-----------------------------	-----------	-----------------------------	-----------------------------	-----------------------------

NBBO Program

(g) Nasdaq will provide a rebate per share executed with respect to all other displayed orders (other than Designated Retail Orders, as defined in Rule 7018) in securities priced at \$1 or more per share that provide liquidity, establish the NBBO, and displayed a quantity of at least one round lot at the time of execution. The rebate will be in addition to any rebate or credit payable under Rule 7018(a) and the ISP, QMM Program, and NBBO Program under Rule 7014.

To qualify for the \$0.0002[4] per share executed NBBO Program rebate in NYSE-listed securities and in Securities Listed on Exchanges other than Nasdaq and NYSE[and the \$0.0002 per share executed NBBO Program rebate in Nasdaq-listed Securities,] a member must execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represents 1.0% or more of Consolidated Volume during the month.[either:

- (1) Execute shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represents 0.5% or more of Consolidated Volume during the month, or
- (2) Add NOM Market Maker liquidity, as defined in Chapter XV, Section 2 of the Nasdaq Options Market rules, in Penny Pilot Options and/or Non-Penny Pilot Options above 0.90% of total industry customer equity and ETF option ADV contracts per day in a month.]

[In addition, i]If a member [qualifies for the](i) [NBBO Program]executes shares of liquidity provided in all securities through one or more of its Nasdaq Market Center MPIDs that represents 0.5% or more of Consolidated Volume during the month, and (ii) has a ratio of at least 25% NBBO liquidity provided* to liquidity provided during the month, the member will receive an additional \$0.0002[1] per share executed credit for displayed quotes/orders (other than Supplemental Orders or Designated Retail Orders) that provide liquidity priced at \$1 or more. This rebate will be in addition to any rebate or credit payable under Rule 7018(a) and the ISP, QMM Program, and NBBO Program under Rule 7014.

*NBBO liquidity provided means liquidity provided from orders (other than Designated Retail Orders, as defined in Nasdaq Rule 7018), that establish the NBBO, and displayed a quantity of at least one round lot at the time of execution.
