Exhibit 2 - Notices, Written Comments, Transcripts, Other Communications

Add Remove View

Exhibit Sent As Paper Document

Copies of notices, written comments, transcripts, other communications. If such documents cannot be filed electronically in accordance with Instruction F, they shall be filed in accordance with Instruction G.

Exhibit 3 - Form, Report, or Questionnaire

Add Remove View

Exhibit Sent As Paper Document

Copies of any form, report, or questionnaire that the self-regulatory organization proposes to use to help implement or operate the proposed rule change, or that is referred to by the proposed rule change.

Exhibit 4 - Marked Copies

Add Remove View

The full text shall be marked, in any convenient manner, to indicate additions to and deletions from the immediately preceding filing. The purpose of Exhibit 4 is to permit the staff to identify immediately the changes made from the text of the rule with which it has been working.

Exhibit 5 - Proposed Rule Text

Add Remove View

The self-regulatory organization may choose to attach as Exhibit 5 proposed changes to rule text in place of providing it in Item I and which may otherwise be more easily readable if provided separately from Form 19b-4. Exhibit 5 shall be considered part of the proposed rule change.

Partial Amendment

Add Remove View

If the self-regulatory organization is amending only part of the text of a lengthy proposed rule change, it may, with the Commission's permission, file only those portions of the text of the proposed rule change in which changes are being made if the filing (i.e. partial amendment) is clearly understandable on its face. Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of Proposed Rule Change

(a) Pursuant to the provisions of Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),¹ The Nasdaq Stock Market LLC (“Nasdaq” or “Exchange”) is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposed rule change to amend General 7: Consolidated Audit Trail Compliance, the Exchange’s compliance rule (“Compliance Rule”) regarding the National Market System Plan Governing the Consolidated Audit Trail (the “CAT NMS Plan” or “Plan”)² to be consistent with a conditional exemption granted by the Commission from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Allocation Exemption”).³ A notice of the proposed rule change for publication in the Federal Register is attached hereto as Exhibit 1, and the text of the proposed rule change is attached as Exhibit 5.

(b) The Exchange does not believe that the proposed rule change will have any direct effect, or any significant indirect effect, on any other Exchange rule in effect at the time of this filing.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors of the Exchange (the “Board”)

¹ 15 U.S.C. 78s(b)(1).

² Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the Compliance Rule.

³ See Securities Exchange Act Rel. No. 90223 (October 19, 2020), 85 FR 67576 (October 23, 2020) (“Allocation Exemptive Order”).

on November 5, 2020. Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action by the Exchange is necessary for the filing of the rule change.

Questions and comments on the proposed rule change may be directed to:

Jonathan F. Cayne
Principal Associate General Counsel
Nasdaq, Inc.
(301) 978-8493

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of this proposed rule change is to amend the General 7: Consolidated Audit Trail Compliance to be consistent with the Allocation Exemption. The Commission granted the relief conditioned upon the Participants' adoption of Compliance Rules that implement the alternative approach to reporting allocations to the Central Repository described in the Allocation Exemption (referred to as the "Allocation Alternative").

(1) Request for Exemptive Relief

Pursuant to Section 6.4(d)(ii)(A) of the CAT NMS Plan, each Participant must, through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if the order is executed, in whole or in part: (1) an Allocation Report;⁴ (2) the SRO-Assigned Market Participant Identifier of the clearing broker or

⁴ Section 1.1 of the CAT NMS Plan defines an "Allocation Report" as "a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares

prime broker, if applicable; and the (3) CAT-Order-ID of any contra-side order(s).

Accordingly, the Exchange and the other Participants implemented Compliance Rules that require their Industry Members that are executing brokers to submit to the Central Repository, among other things, Allocation Reports and the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.

On August 27, 2020, the Participants submitted to the Commission a request for an exemption from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Exemption Request”).⁵ In the Exemption Request, the Participants requested that they be permitted to implement the Allocation Alternative, which, as noted above, is an alternative approach to reporting allocations to the Central Repository. Under the Allocation Alternative, any Industry Member that performs an allocation to a client account would be required under the Compliance Rule to submit an Allocation Report to the Central Repository when shares/contracts are allocated to a client account regardless of whether the Industry Member was involved in executing the underlying order(s). Under the Allocation Alternative, a “client account” would be any account that is not owned or controlled by the Industry Member.

In addition, under the Allocation Alternative, an “Allocation” would be defined as: (1) the placement of shares/contracts into the same account for which an order was

allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.”

⁵ See letter from the Participants to Vanessa Countryman, Secretary, Commission, dated August 27, 2020 (the “Exemption Request”).

originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (*e.g.*, subaccount allocations, delivery versus payment (“DVP”) allocations). Pursuant to this definition and the proposed Allocation Alternative, an Industry Member that performs an Allocation to an account that is not a client account, such as proprietary accounts and events including step outs,⁶ or correspondent flips,⁷ would not be required to submit an Allocation Report to the Central Repository for that allocation, but could do so on a voluntary basis. Industry Members would be allowed to report Allocations to accounts other than client accounts; in that instance, such Allocations must be marked as Allocations to accounts other than client accounts.

(A) Executing Brokers and Allocation Reports

To implement the Allocation Alternative, the Participants requested exemptive relief from Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan, to the extent that the provision requires each Participant to, through its Compliance Rule, require its Industry Members that are executing brokers, who do not perform Allocations, to record and report to the Central Repository, if the order is executed, in whole or in part, an Allocation Report.

⁶ “A step-out allows a broker-dealer to allocate all or part of a client’s position from a previously executed trade to the client’s account at another broker-dealer. In other words, a step-out functions as a client’s position transfer, rather than a trade; there is no exchange of shares and funds and no change in beneficial ownership.” See FINRA, Trade Reporting Frequently Asked Questions, at Section 301, available at:

<https://www.finra.org/filing-reporting/market-transparency-reporting/trade-reporting-faq>.

⁷ Correspondent clearing flips are the movement of a position from an executing broker’s account to a different account for clearance and settlement, allowing a broker-dealer to execute a trade through another broker-dealer and settle the trade in its own account. See, *e.g.*, The Depository Trust & Clearing Corporation, Correspondent Clearing, available at:

<https://www.dtcc.com/clearing-services/equities-tradecapture/correspondent-clearing>.

Under the Allocation Alternative, when an Industry Member other than an executing broker (*e.g.*, a prime broker or clearing broker) performs an Allocation, that Industry Member would be required to submit the Allocation Report to the Central Repository. When an executing broker performs an Allocation for an order that is executed, in whole or in part, the burden of submitting an Allocation Report to the Central Repository would remain with the executing broker under the Allocation Alternative. In certain circumstances this would result in multiple Allocation Reports – the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

The Participants stated that granting exemptive relief from submitting Allocation Reports for executing brokers who do not perform an Allocation, and requiring the Industry Member other than the executing broker that is performing the Allocation to submit such Allocation Reports, is consistent with the basic approach taken by the Commission in adopting Rule 613 under the Exchange Act. Specifically, the Participants stated that they believe that the Commission sought to require each broker-dealer and exchange that touches an order to record the required data with respect to actions it takes on the order.⁸ Without the requested exemptive relief, executing brokers that do not perform Allocations would be required to submit Allocation Reports. In addition, the Participants stated that, because shares/contracts for every execution must be allocated to

⁸ See Securities Exchange Act Release No. 67457 (July 18, 2012), 77 FR 45722, 45748 (August 1, 2012).

an account by the clearing broker in such circumstances, there would be no loss of information by shifting the reporting obligation from the executing broker to the clearing broker.

(B) Identity of Prime Broker

To implement the Allocation Alternative, the Participants also requested exemptive relief from Section 6.4(d)(ii)(A)(2) of the CAT NMS Plan, to the extent that the provision requires each Participant to, through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if an order is executed, in whole or in part, the SRO-Assigned Market Participant Identifier of the prime broker, if applicable. Currently, under the CAT NMS Plan, an Industry Member is required to report the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker in connection with the execution of an order, and such information would be part of the order's lifecycle, rather than in an Allocation Report that is not linked to the order's lifecycle.⁹ Under the Allocation Alternative, the identity of the prime broker would be required to be reported by the clearing broker on the Allocation Report, and, in addition, the prime broker itself would be required to report the ultimate allocation, which the Participants believe would provide more complete information.

The Participants stated that associating a prime broker with a specific execution, as is currently required by the CAT NMS Plan, does not reflect how the allocation process works in practice as allocations to a prime broker are done post-trade and are performed by the clearing broker of the executing broker. The Participants also stated

⁹ The Participants did not request exemptive relief relating to the reporting of the SRO-Assigned Market Participant Identifier of clearing brokers.

that with the implementation of the Allocation Alternative, it would be duplicative for the executing broker to separately identify the prime broker for allocation purposes.

The Participants stated that if a particular customer only has one prime broker, the identity of the prime broker can be obtained from the customer and account information through the DVP accounts for that customer that contain the identity of the prime broker. The Participants further stated that Allocation Reports related to those executions would reflect that shares/contracts were allocated to the single prime broker. The Participants believe that there is no loss of information through the implementation of the Allocation Alternative compared to what is required in the CAT NMS Plan and that this approach does not decrease the regulatory utility of the CAT for single prime broker circumstances.

In cases where a customer maintains relationships with multiple prime brokers, the Participants asserted that the executing broker will not have information at the time of the trade as to which particular prime broker may be allocated all or part of the execution. Under the Allocation Alternative, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts where the shares/contracts were ultimately allocated. To determine the prime broker for a customer, a regulatory user would query the customer and account database using the customer's CCID to obtain all DVP accounts for the CCID at broker-dealers. The Participants state that when a customer maintains relationships with multiple prime brokers, the customer typically has a separate DVP account with each prime broker, and the identities of those prime brokers can be obtained from the customer and account information.

(C) Additional Conditions to Exemptive Relief

In the Exemption Request, the Participants included certain additional conditions for the requested relief. Currently, the definition of Allocation Report in the CAT NMS Plan only refers to shares. To implement the Allocation Alternative, the Participants proposed to require that all required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Specifically, Participants would require the reporting of the following in each Allocation Report: (1) the FDID for the account receiving the allocation, including subaccounts; (2) the security that has been allocated; (3) the identifier of the firm reporting the allocation; (3) the price per share/contracts of shares/contracts allocated; (4) the side of shares/contracts allocated; (4) the number of shares/contracts allocated; and (5) the time of the allocation.

Furthermore, to implement the Allocation Alternative, the Participants proposed to require the following information on all Allocation Reports: (1) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (2) trade date; (3) settlement date; (4) IB/correspondent CRD Number (if applicable); (5) FDID of new order(s) (if available in the booking system);¹⁰ (6) allocation instruction time (optional); (7) if the account meets the definition of institution

¹⁰ The Participants propose that for scenarios where the Industry Member responsible for reporting the Allocation has the FDID of the related new order(s) available, such FDID must be reported. This would include scenarios in which: (1) the FDID structure of the top account and subaccounts is known to the Industry Member responsible for reporting the Allocation(s); and (2) the FDID structure used by the IB/Correspondent when reporting new orders is known to the clearing firm reporting the related Allocations.

under FINRA Rule 4512(c);¹¹ (8) type of allocation (allocation to a custody account, allocation to a DVP account, step out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (*e.g.*, option exercises, conversions); (9) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (10) if an allocation was cancelled, a cancel flag, which indicates that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(2) Proposed Rule Changes to Implement Exemptive Relief

On October 29, 2020, the Commission granted the exemptive relief requested in the Exemption Request. The Commission granted the relief conditioned upon the adoption of Compliance Rules that implement the reporting requirements of the Allocation Alternative. Accordingly, the Exchange proposes the following changes to its Compliance Rule to implement the reporting requirements of the Allocation Alternative.

(A) Definition of Allocation

The Exchange proposes to add a definition of “Allocation” as new paragraph (c) to General 7, Section 3.¹² Proposed paragraph (c) of General 7, Section 3 would define

¹¹ FINRA Rule 4512(c) states the for purposes of the rule, the term “institutional account” means the account of: (1) a bank, savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

¹² The Exchange proposes to renumber the definitions in General 7, Section 3 to accommodate the addition of this new definition of “Allocation” and the new definition of “Client Account” discussed below.

an “Allocation” to mean “(1) the placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (e.g., subaccount allocations, delivery versus payment (“DVP”) allocations).” The SEC stated in the Allocation Exemption that this definition of “Allocation” is reasonable.

(B) Definition of Allocation Report

The Exchange proposes to amend the definition of “Allocation Report” set forth in General 7, Section 1(c) to reflect the requirements of the Allocation Exemption.

General 7, Section 1(c) defines the term “Allocation Report” to mean:

a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided, for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.

The Exchange proposes to amend this definition in two ways: (1) applying the requirements for Allocation Reports to contracts in addition to shares; and (2) requiring the reporting of additional elements for the Allocation Report.

(i) Shares and Contracts

The requirements for Allocation Reports apply only to shares, as the definition of “Allocation Report” in General 7, Section 1(c) refers to shares, not contracts. In the Allocation Exemption, the Commission stated that applying the requirements for Allocation Reports to contracts in addition to shares is appropriate because CAT reporting requirements apply to both options and equities. Accordingly, the SEC stated that the Participants would be required to modify their Compliance Rules such that all

required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Therefore, the Exchange proposes to amend General 7, Section 1(c) (to be renumbered as General 7, Section 1(d)) to apply to contracts, as well as shares. Specifically, the Exchange proposes to add references to contracts to the definition of “Allocation Report” to the following phrases: “the Firm Designated ID for any account(s), including subaccount(s), to which executed shares/contracts are allocated,” “the price per share/contract of shares/contracts allocated,” “the side of shares/contracts allocated,” and “the number of shares/contracts allocated to each account.”

(ii) Additional Elements

The Commission also conditioned the Allocation Exemption on the Participants amending their Compliance Rules to require the ten additional elements in Allocation Reports described above. Accordingly, the Exchange proposes to require these additional elements in Allocation Reports. Specifically, the Exchange proposes to amend the definition of “Allocation Report” in General 7, Section 1(c) (to be renumbered as General 7, Section 1(d)) to include the following elements, in addition to those elements currently required under the CAT NMS Plan:

(6) the time of the allocation; (7) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (8) trade date; (9) settlement date; (10) IB/correspondent CRD Number (if applicable); (11) FDID of new order(s) (if available in the booking system); (12) allocation instruction time (optional); (12) if account meets the definition of institution under FINRA Rule 4512(c); (13) type of allocation (allocation to a custody

account, allocation to a DVP account, step-out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (e.g., option exercises, conversions); (14) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (15) if an allocation was cancelled, a cancel flag indicating that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(C) Allocation Reports

(i) Executing Brokers that Do Not Perform Allocations

The Commission granted the Participants an exemption from the requirement that the Participants, through their Compliance Rule, require executing brokers that do not perform Allocations to submit Allocation Reports. The Commission stated that it understands that executing brokers that are not self-clearing do not perform allocations themselves, and such allocations are handled by prime and/or clearing brokers, and these executing brokers therefore do not possess the requisite information to provide Allocation Reports. Accordingly, the Exchange proposes to eliminate General 7, Section 3(a)(2)(A)(i),¹³ which requires an Industry Member to record and report to the Central Repository an Allocation Report if the order is executed, in whole or in part, and to replace this provision with proposed General 7, Section 3(a)(2)(F) as discussed below.

(ii) Industry Members that Perform Allocations

¹³ The Exchange proposes to renumber General 7, Section 3(a)(2)(A)(ii) and (iii) as General 7, Section 3(a)(2)(A)(i) and (ii) in light of the proposed deletion of General 7, Section 3(a)(2)(A)(i).

The Allocation Exemption requires the Participants to amend their Compliance Rules to require Industry Members to provide Allocation Reports to the Central Repository any time they perform Allocations to a client account, whether or not the Industry Member was the executing broker for the trades. Accordingly, the Commission conditioned the Allocation Exemption on the Participants adopting Compliance Rules that require prime and/or clearing brokers to submit Allocation Reports when such brokers perform allocations, in addition to requiring executing brokers that perform allocations to submit Allocation Reports. The Commission determined that such exemptive relief would improve efficiency and reduce the costs and burdens of reporting allocations for Industry Members because the reporting obligation would belong to the Industry Member with the requisite information, and executing brokers that do not have the information required on an Allocation Report would not have to develop the infrastructure and processes required to obtain, store and report the information. The Commission stated that this exemptive relief should not reduce the regulatory utility of the CAT because an Allocation Report would still be submitted for each executed trade allocated to a client account, which in certain circumstances could still result in multiple Allocation Reports,¹⁴ just not necessarily by the executing broker.

In accordance with the Allocation Exemption, the Exchange proposes to add proposed General 7, Section 3(a)(2)(F) to the Compliance Rule. Proposed General 7,

¹⁴ As noted above, under the Allocation Alternative, for certain executions, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

Section 3(a)(2)(F) would require Industry Members to record and report to the Central Repository “an Allocation Report any time the Industry Member performs an Allocation to a Client Account, whether or not the Industry Member was the executing broker for the trade.”

(iii) Client Accounts

In the Allocation Exemption, the Commission also exempted the Participants from the requirement that they amend their Compliance Rules to require Industry Members to report Allocations for accounts other than client accounts. The Commission believes that allocations to client accounts, and not allocations to proprietary accounts or events such as step-outs and correspondent flips, provide regulators the necessary information to detect abuses in the allocation process because it would provide regulators with detailed information regarding the fulfillment of orders submitted by clients, while reducing reporting burdens on broker-dealers. For example, Allocation Reports would be required for allocations to registered investment advisor and money manager accounts. The Commission further believes that the proposed approach should facilitate regulators’ ability to distinguish Allocation Reports relating to allocations to client accounts from other Allocation Reports because Allocations to accounts other than client accounts would have to be identified as such. This approach could reduce the time CAT Reporters expend to comply with CAT reporting requirements and lower costs by allowing broker-dealers to use existing business practices.

To clarify that an Industry Member must report an Allocation Report solely for Allocations to a client account, proposed General 7, Section 3(a)(2)(F) specifically references “Client Accounts,” as discussed above. In addition, the Exchange proposes to

add a definition of “Client Account” as proposed General 7, Section 1(l). Proposed General 7, Section 1(l) would define a “Client Account” to mean “for the purposes of an Allocation and Allocation Report, any account or subaccount that is not owned or controlled by the Industry Member.”

(D) Identity of Prime Broker

The Exchange also proposes to amend General 7, Section 3(a)(2)(A)(ii) to eliminate the requirement for executing brokers to record and report the SRO-Assigned Market Participant Identifier of the prime broker. General 7, Section 3(a)(2)(A)(ii) states that each Industry Member is required to record and report to the Central Repository, if the order is executed, in whole or in part, the “SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.” The Exchange proposes to delete the phrase “or prime broker” from this provision. Accordingly, each Industry Member that is an executing broker would no longer be required to report the SRO-Assigned Market Participant Identifier of the prime broker.

As the Commission noted in the Allocation Exemption, exempting the Participants from the requirement that they, through their Compliance Rules, require executing brokers to provide the SRO-Assigned Market Participant Identifier of the prime broker is appropriate because, as stated by the Participants, allocations are done on a post-trade basis and the executing broker will not have the requisite information at the time of the trade. Because an executing broker, in certain circumstances, does not have this information at the time of the trade, this relief relieves executing brokers of the burdens and costs of developing infrastructure and processes to obtain this information in order to meet the contemporaneous reporting requirements of the CAT NMS Plan.

As the Commission noted in the Allocation Exemption, although executing brokers would no longer be required to provide the prime broker information, regulators will still be able to determine the prime broker(s) associated with orders through querying the customer and account information database. If an executing broker has only one prime broker, the identity of the prime broker can be obtained from the customer and account information associated with the executing broker. For customers with multiple prime brokers, the identity of the prime brokers can be obtained from the customer and account information which will list the prime broker, if there is one, that is associated with each account.

b. Statutory Basis

Nasdaq believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act,¹⁵ in particular, which require, among other things, that the Exchange's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and Section 6(b)(8) of the Act,¹⁶ which requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate.

The Exchange believes that this proposal is consistent with the Act because it is consistent with, and implements, the Allocation Exemption, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan "is necessary and appropriate in

¹⁵ 15 U.S.C. 78f(b)(6).

¹⁶ 15 U.S.C. 78f(b)(8).

the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹⁷ To the extent that this proposal implements the Plan, and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

4. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that the proposed rule changes are consistent with the Allocation Exemption, and are designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan. The Exchange also notes that the proposed rule changes will apply equally to all Industry Members. In addition, all national securities exchanges and FINRA are proposing this amendment to their Compliance Rules. Therefore, this is not a competitive rule filing and does not impose a burden on competition.

5. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

6. Extension of Time Period for Commission Action

Not applicable.

¹⁷ See Securities Exchange Act Release No. 79318 (November 15, 2016), 81 FR 84696, 84697 (November 23, 2016).

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

The proposed rule change is effective upon filing pursuant to Section 19(b)(3) of the Act¹⁸ and paragraph (f)(6) of Rule 19b-4 thereunder.¹⁹ The Exchange asserts that the proposed rule change: (i) will not significantly affect the protection of investors or the public interest, (ii) will not impose any significant burden on competition, and (iii) by its terms, will not become operative for 30 days after the date of this filing, or such shorter time as the Commission may designate, if consistent with the protection of investors and the public interest.

Additionally, the Exchange provided the Commission with written notice of its intent to file the proposed rule change, along with a brief description and text of the proposed rule change, at least five business days prior to the date of the filing, or such shorter time as designated by the Commission. The Exchange believes that the proposed rule change would not significantly affect the protection of investors or the public interest or impose a significant burden on competition because it seeks to conform the Compliance Rule to be consistent with the Allocation Exemption. Furthermore, the proposed rule change is based on SR-NYSE-2020-100 and SR-NYSEArca-2020-108. Accordingly, the Exchange has designated this rule filing as non-controversial under Section 19(b)(3)(A) of the Act²⁰ and paragraph (f)(6) of Rule 19b-4 thereunder.²¹

¹⁸ 15 U.S.C. 78s(b)(3).

¹⁹ 17 CFR 240.19b-4(f)(6).

²⁰ 15 U.S.C. 78s(b)(3)(A).

²¹ 17 CFR 240.19b-4.

At any time within sixty (60) days of the filing of such proposed rule change, the Commission may summarily temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act.

8. Proposed Rule Change Based on Rules of Another Self-Regulatory Organization or of the Commission

As discussed in detail above, the proposed rule change is consistent with the Allocation Exemption. In addition, the proposed rule change is based on SR-NYSE-2020-100 and SR-NYSEArca-2020-108.

9. Security-Based Swap Submissions Filed Pursuant to Section 3C of the Act

Not applicable.

10. Advance Notices Filed Pursuant to Section 806(e) of the Payment, Clearing and Settlement Supervision Act

Not applicable.

11. Exhibits

Exhibit 1. Completed notice of proposed rule change for publication in the Federal Register.

Exhibit 5. Text of the proposed rule change

EXHIBIT 1

SECURITIES AND EXCHANGE COMMISSION
(Release No. _____ ; File No. SR-NASDAQ-2020-099)

December __, 2020

Self-Regulatory Organizations; The Nasdaq Stock Market LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend General 7: Consolidated Audit Trail Compliance, the Exchange's compliance rule

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on December 30, 2020, The Nasdaq Stock Market LLC ("Nasdaq" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend General 7: Consolidated Audit Trail Compliance, the Exchange's compliance rule ("Compliance Rule") regarding the National Market System Plan Governing the Consolidated Audit Trail (the "CAT NMS Plan" or "Plan")³ to be consistent with a conditional exemption granted by the

¹ 15 U.S.C. 78s(b)(1).

² 17 CFR 240.19b-4.

³ Unless otherwise specified, capitalized terms used in this rule filing are defined as set forth in the Compliance Rule.

Commission from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Allocation Exemption”).⁴

The text of the proposed rule change is available on the Exchange’s Website at <https://listingcenter.nasdaq.com/rulebook/nasdaq/rules>, at the principal office of the Exchange, and at the Commission’s Public Reference Room.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of this proposed rule change is to amend the General 7: Consolidated Audit Trail Compliance to be consistent with the Allocation Exemption. The Commission granted the relief conditioned upon the Participants’ adoption of Compliance Rules that implement the alternative approach to reporting allocations to the Central Repository described in the Allocation Exemption (referred to as the “Allocation Alternative”).

(1) Request for Exemptive Relief

Pursuant to Section 6.4(d)(ii)(A) of the CAT NMS Plan, each Participant must,

⁴ See Securities Exchange Act Rel. No. 90223 (October 19, 2020), 85 FR 67576 (October 23, 2020) (“Allocation Exemptive Order”).

through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if the order is executed, in whole or in part: (1) an Allocation Report;⁵ (2) the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable; and the (3) CAT-Order-ID of any contra-side order(s). Accordingly, the Exchange and the other Participants implemented Compliance Rules that require their Industry Members that are executing brokers to submit to the Central Repository, among other things, Allocation Reports and the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.

On August 27, 2020, the Participants submitted to the Commission a request for an exemption from certain allocation reporting requirements set forth in Sections 6.4(d)(ii)(A)(1) and (2) of the CAT NMS Plan (“Exemption Request”).⁶ In the Exemption Request, the Participants requested that they be permitted to implement the Allocation Alternative, which, as noted above, is an alternative approach to reporting allocations to the Central Repository. Under the Allocation Alternative, any Industry Member that performs an allocation to a client account would be required under the Compliance Rule to submit an Allocation Report to the Central Repository when shares/contracts are allocated to a client account regardless of whether the Industry

⁵ Section 1.1 of the CAT NMS Plan defines an “Allocation Report” as “a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.”

⁶ See letter from the Participants to Vanessa Countryman, Secretary, Commission, dated August 27, 2020 (the “Exemption Request”).

Member was involved in executing the underlying order(s). Under the Allocation Alternative, a “client account” would be any account that is not owned or controlled by the Industry Member.

In addition, under the Allocation Alternative, an “Allocation” would be defined as: (1) the placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (*e.g.*, subaccount allocations, delivery versus payment (“DVP”) allocations). Pursuant to this definition and the proposed Allocation Alternative, an Industry Member that performs an Allocation to an account that is not a client account, such as proprietary accounts and events including step outs,⁷ or correspondent flips,⁸ would not be required to submit an Allocation Report to the Central Repository for that allocation, but could do so on a voluntary basis. Industry Members would be allowed to report Allocations to accounts other than client accounts; in that instance, such Allocations must be marked as Allocations to accounts other than client accounts.

(A) Executing Brokers and Allocation Reports

⁷ “A step-out allows a broker-dealer to allocate all or part of a client’s position from a previously executed trade to the client’s account at another broker-dealer. In other words, a step-out functions as a client’s position transfer, rather than a trade; there is no exchange of shares and funds and no change in beneficial ownership.” See FINRA, Trade Reporting Frequently Asked Questions, at Section 301, available at:

<https://www.finra.org/filing-reporting/market-transparency-reporting/trade-reporting-faq>.

⁸ Correspondent clearing flips are the movement of a position from an executing broker’s account to a different account for clearance and settlement, allowing a broker-dealer to execute a trade through another broker-dealer and settle the trade in its own account. See, *e.g.*, The Depository Trust & Clearing Corporation, Correspondent Clearing, available at:

<https://www.dtcc.com/clearing-services/equities-tradecapture/correspondent-clearing>.

To implement the Allocation Alternative, the Participants requested exemptive relief from Section 6.4(d)(ii)(A)(1) of the CAT NMS Plan, to the extent that the provision requires each Participant to, through its Compliance Rule, require its Industry Members that are executing brokers, who do not perform Allocations, to record and report to the Central Repository, if the order is executed, in whole or in part, an Allocation Report. Under the Allocation Alternative, when an Industry Member other than an executing broker (*e.g.*, a prime broker or clearing broker) performs an Allocation, that Industry Member would be required to submit the Allocation Report to the Central Repository. When an executing broker performs an Allocation for an order that is executed, in whole or in part, the burden of submitting an Allocation Report to the Central Repository would remain with the executing broker under the Allocation Alternative. In certain circumstances this would result in multiple Allocation Reports – the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

The Participants stated that granting exemptive relief from submitting Allocation Reports for executing brokers who do not perform an Allocation, and requiring the Industry Member other than the executing broker that is performing the Allocation to submit such Allocation Reports, is consistent with the basic approach taken by the Commission in adopting Rule 613 under the Exchange Act. Specifically, the Participants stated that they believe that the Commission sought to require each broker-dealer and exchange that touches an order to record the required data with respect to actions it takes

on the order.⁹ Without the requested exemptive relief, executing brokers that do not perform Allocations would be required to submit Allocation Reports. In addition, the Participants stated that, because shares/contracts for every execution must be allocated to an account by the clearing broker in such circumstances, there would be no loss of information by shifting the reporting obligation from the executing broker to the clearing broker.

(B) Identity of Prime Broker

To implement the Allocation Alternative, the Participants also requested exemptive relief from Section 6.4(d)(ii)(A)(2) of the CAT NMS Plan, to the extent that the provision requires each Participant to, through its Compliance Rule, require its Industry Members to record and report to the Central Repository, if an order is executed, in whole or in part, the SRO-Assigned Market Participant Identifier of the prime broker, if applicable. Currently, under the CAT NMS Plan, an Industry Member is required to report the SRO-Assigned Market Participant Identifier of the clearing broker or prime broker in connection with the execution of an order, and such information would be part of the order's lifecycle, rather than in an Allocation Report that is not linked to the order's lifecycle.¹⁰ Under the Allocation Alternative, the identity of the prime broker would be required to be reported by the clearing broker on the Allocation Report, and, in addition, the prime broker itself would be required to report the ultimate allocation, which the Participants believe would provide more complete information.

⁹ See Securities Exchange Act Release No. 67457 (July 18, 2012), 77 FR 45722, 45748 (August 1, 2012).

¹⁰ The Participants did not request exemptive relief relating to the reporting of the SRO-Assigned Market Participant Identifier of clearing brokers.

The Participants stated that associating a prime broker with a specific execution, as is currently required by the CAT NMS Plan, does not reflect how the allocation process works in practice as allocations to a prime broker are done post-trade and are performed by the clearing broker of the executing broker. The Participants also stated that with the implementation of the Allocation Alternative, it would be duplicative for the executing broker to separately identify the prime broker for allocation purposes.

The Participants stated that if a particular customer only has one prime broker, the identity of the prime broker can be obtained from the customer and account information through the DVP accounts for that customer that contain the identity of the prime broker. The Participants further stated that Allocation Reports related to those executions would reflect that shares/contracts were allocated to the single prime broker. The Participants believe that there is no loss of information through the implementation of the Allocation Alternative compared to what is required in the CAT NMS Plan and that this approach does not decrease the regulatory utility of the CAT for single prime broker circumstances.

In cases where a customer maintains relationships with multiple prime brokers, the Participants asserted that the executing broker will not have information at the time of the trade as to which particular prime broker may be allocated all or part of the execution. Under the Allocation Alternative, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation Report identifying the specific customer accounts where the shares/contracts were ultimately allocated. To determine the prime broker for a customer, a regulatory user would query the customer and account database using the customer's CCID to

obtain all DVP accounts for the CCID at broker-dealers. The Participants state that when a customer maintains relationships with multiple prime brokers, the customer typically has a separate DVP account with each prime broker, and the identities of those prime brokers can be obtained from the customer and account information.

(C) Additional Conditions to Exemptive Relief

In the Exemption Request, the Participants included certain additional conditions for the requested relief. Currently, the definition of Allocation Report in the CAT NMS Plan only refers to shares. To implement the Allocation Alternative, the Participants proposed to require that all required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Specifically, Participants would require the reporting of the following in each Allocation Report: (1) the FDID for the account receiving the allocation, including subaccounts; (2) the security that has been allocated; (3) the identifier of the firm reporting the allocation; (3) the price per share/contracts of shares/contracts allocated; (4) the side of shares/contracts allocated; (4) the number of shares/contracts allocated; and (5) the time of the allocation.

Furthermore, to implement the Allocation Alternative, the Participants proposed to require the following information on all Allocation Reports: (1) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (2) trade date; (3) settlement date; (4) IB/correspondent CRD Number (if applicable); (5) FDID of new order(s) (if available in the booking system);¹¹ (6)

¹¹ The Participants propose that for scenarios where the Industry Member responsible for reporting the Allocation has the FDID of the related new order(s) available, such FDID must be reported. This would include scenarios in which: (1) the FDID structure of the top account and subaccounts is known to the Industry Member responsible for reporting the Allocation(s); and (2) the FDID

allocation instruction time (optional); (7) if the account meets the definition of institution under FINRA Rule 4512(c);¹² (8) type of allocation (allocation to a custody account, allocation to a DVP account, step out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (*e.g.*, option exercises, conversions); (9) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (10) if an allocation was cancelled, a cancel flag, which indicates that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(2) Proposed Rule Changes to Implement Exemptive Relief

On October 29, 2020, the Commission granted the exemptive relief requested in the Exemption Request. The Commission granted the relief conditioned upon the adoption of Compliance Rules that implement the reporting requirements of the Allocation Alternative. Accordingly, the Exchange proposes the following changes to its Compliance Rule to implement the reporting requirements of the Allocation Alternative.

(A) Definition of Allocation

The Exchange proposes to add a definition of “Allocation” as new paragraph (c)

structure used by the IB/Correspondent when reporting new orders is known to the clearing firm reporting the related Allocations.

¹² FINRA Rule 4512(c) states the for purposes of the rule, the term “institutional account” means the account of: (1) a bank, savings and loan association, insurance company or registered investment company; (2) an investment adviser registered either with the SEC under Section 203 of the Investment Advisers Act or with a state securities commission (or any agency or office performing like functions); or (3) any other person (whether a natural person, corporation, partnership, trust or otherwise) with total assets of at least \$50 million.

to General 7, Section 3.¹³ Proposed paragraph (c) of General 7, Section 3 would define an “Allocation” to mean “(1) the placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (e.g., subaccount allocations, delivery versus payment (“DVP”) allocations).” The SEC stated in the Allocation Exemption that this definition of “Allocation” is reasonable.

(B) Definition of Allocation Report

The Exchange proposes to amend the definition of “Allocation Report” set forth in General 7, Section 1(c) to reflect the requirements of the Allocation Exemption.

General 7, Section 1(c) defines the term “Allocation Report” to mean:

a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares are allocated and provides the security that has been allocated, the identifier of the firm reporting the allocation, the price per share of shares allocated, the side of shares allocated, the number of shares allocated to each account, and the time of the allocation; provided, for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.

The Exchange proposes to amend this definition in two ways: (1) applying the requirements for Allocation Reports to contracts in addition to shares; and (2) requiring the reporting of additional elements for the Allocation Report.

(i) Shares and Contracts

The requirements for Allocation Reports apply only to shares, as the definition of “Allocation Report” in General 7, Section 1(c) refers to shares, not contracts. In the Allocation Exemption, the Commission stated that applying the requirements for

¹³ The Exchange proposes to renumber the definitions in General 7, Section 3 to accommodate the addition of this new definition of “Allocation” and the new definition of “Client Account” discussed below.

Allocation Reports to contracts in addition to shares is appropriate because CAT reporting requirements apply to both options and equities. Accordingly, the SEC stated that the Participants would be required to modify their Compliance Rules such that all required elements of Allocation Reports apply to both shares and contracts, as applicable, for all Eligible Securities. Therefore, the Exchange proposes to amend General 7, Section 1(c) (to be renumbered as General 7, Section 1(d)) to apply to contracts, as well as shares. Specifically, the Exchange proposes to add references to contracts to the definition of “Allocation Report” to the following phrases: “the Firm Designated ID for any account(s), including subaccount(s), to which executed shares/contracts are allocated,” “the price per share/contract of shares/contracts allocated,” “the side of shares/contracts allocated,” and “the number of shares/contracts allocated to each account.”

(ii) Additional Elements

The Commission also conditioned the Allocation Exemption on the Participants amending their Compliance Rules to require the ten additional elements in Allocation Reports described above. Accordingly, the Exchange proposes to require these additional elements in Allocation Reports. Specifically, the Exchange proposes to amend the definition of “Allocation Report” in General 7, Section 1(c) (to be renumbered as General 7, Section 1(d)) to include the following elements, in addition to those elements currently required under the CAT NMS Plan:

- (6) the time of the allocation;
- (7) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member;
- (8) trade date;
- (9) settlement date;
- (10) IB/correspondent CRD Number (if applicable);
- (11)

FDID of new order(s) (if available in the booking system); (12) allocation instruction time (optional); (13) if account meets the definition of institution under FINRA Rule 4512(c); (14) type of allocation (allocation to a custody account, allocation to a DVP account, step-out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (e.g., option exercises, conversions); (15) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (16) if an allocation was cancelled, a cancel flag indicating that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled.

(C) Allocation Reports

(i) Executing Brokers that Do Not Perform Allocations

The Commission granted the Participants an exemption from the requirement that the Participants, through their Compliance Rule, require executing brokers that do not perform Allocations to submit Allocation Reports. The Commission stated that it understands that executing brokers that are not self-clearing do not perform allocations themselves, and such allocations are handled by prime and/or clearing brokers, and these executing brokers therefore do not possess the requisite information to provide Allocation Reports. Accordingly, the Exchange proposes to eliminate General 7, Section 3(a)(2)(A)(i),¹⁴ which requires an Industry Member to record and report to the Central

¹⁴ The Exchange proposes to renumber General 7, Section 3(a)(2)(A)(ii) and (iii) as General 7, Section 3(a)(2)(A)(i) and (ii) in light of the proposed deletion of General 7, Section 3(a)(2)(A)(i).

Repository an Allocation Report if the order is executed, in whole or in part, and to replace this provision with proposed General 7, Section 3(a)(2)(F) as discussed below.

(ii) Industry Members that Perform Allocations

The Allocation Exemption requires the Participants to amend their Compliance Rules to require Industry Members to provide Allocation Reports to the Central Repository any time they perform Allocations to a client account, whether or not the Industry Member was the executing broker for the trades. Accordingly, the Commission conditioned the Allocation Exemption on the Participants adopting Compliance Rules that require prime and/or clearing brokers to submit Allocation Reports when such brokers perform allocations, in addition to requiring executing brokers that perform allocations to submit Allocation Reports. The Commission determined that such exemptive relief would improve efficiency and reduce the costs and burdens of reporting allocations for Industry Members because the reporting obligation would belong to the Industry Member with the requisite information, and executing brokers that do not have the information required on an Allocation Report would not have to develop the infrastructure and processes required to obtain, store and report the information. The Commission stated that this exemptive relief should not reduce the regulatory utility of the CAT because an Allocation Report would still be submitted for each executed trade allocated to a client account, which in certain circumstances could still result in multiple Allocation Reports,¹⁵ just not necessarily by the executing broker.

¹⁵ As noted above, under the Allocation Alternative, for certain executions, the executing broker (if self-clearing) or its clearing firm would report individual Allocation Reports identifying the specific prime broker to which shares/contracts were allocated and then each prime broker would itself report an Allocation

In accordance with the Allocation Exemption, the Exchange proposes to add proposed General 7, Section 3(a)(2)(F) to the Compliance Rule. Proposed General 7, Section 3(a)(2)(F) would require Industry Members to record and report to the Central Repository “an Allocation Report any time the Industry Member performs an Allocation to a Client Account, whether or not the Industry Member was the executing broker for the trade.”

(iii) Client Accounts

In the Allocation Exemption, the Commission also exempted the Participants from the requirement that they amend their Compliance Rules to require Industry Members to report Allocations for accounts other than client accounts. The Commission believes that allocations to client accounts, and not allocations to proprietary accounts or events such as step-outs and correspondent flips, provide regulators the necessary information to detect abuses in the allocation process because it would provide regulators with detailed information regarding the fulfillment of orders submitted by clients, while reducing reporting burdens on broker-dealers. For example, Allocation Reports would be required for allocations to registered investment advisor and money manager accounts. The Commission further believes that the proposed approach should facilitate regulators’ ability to distinguish Allocation Reports relating to allocations to client accounts from other Allocation Reports because Allocations to accounts other than client accounts would have to be identified as such. This approach could reduce the time CAT Reporters expend to comply with CAT reporting requirements and lower costs by allowing broker-dealers to use existing business practices.

Report identifying the specific customer accounts to which the shares/contracts were finally allocated.

To clarify that an Industry Member must report an Allocation Report solely for Allocations to a client account, proposed General 7, Section 3(a)(2)(F) specifically references “Client Accounts,” as discussed above. In addition, the Exchange proposes to add a definition of “Client Account” as proposed General 7, Section 1(l). Proposed General 7, Section 1(l) would define a “Client Account” to mean “for the purposes of an Allocation and Allocation Report, any account or subaccount that is not owned or controlled by the Industry Member.”

(D) Identity of Prime Broker

The Exchange also proposes to amend General 7, Section 3(a)(2)(A)(ii) to eliminate the requirement for executing brokers to record and report the SRO-Assigned Market Participant Identifier of the prime broker. General 7, Section 3(a)(2)(A)(ii) states that each Industry Member is required to record and report to the Central Repository, if the order is executed, in whole or in part, the “SRO-Assigned Market Participant Identifier of the clearing broker or prime broker, if applicable.” The Exchange proposes to delete the phrase “or prime broker” from this provision. Accordingly, each Industry Member that is an executing broker would no longer be required to report the SRO-Assigned Market Participant Identifier of the prime broker.

As the Commission noted in the Allocation Exemption, exempting the Participants from the requirement that they, through their Compliance Rules, require executing brokers to provide the SRO-Assigned Market Participant Identifier of the prime broker is appropriate because, as stated by the Participants, allocations are done on a post-trade basis and the executing broker will not have the requisite information at the time of the trade. Because an executing broker, in certain circumstances, does not have

this information at the time of the trade, this relief relieves executing brokers of the burdens and costs of developing infrastructure and processes to obtain this information in order to meet the contemporaneous reporting requirements of the CAT NMS Plan.

As the Commission noted in the Allocation Exemption, although executing brokers would no longer be required to provide the prime broker information, regulators will still be able to determine the prime broker(s) associated with orders through querying the customer and account information database. If an executing broker has only one prime broker, the identity of the prime broker can be obtained from the customer and account information associated with the executing broker. For customers with multiple prime brokers, the identity of the prime brokers can be obtained from the customer and account information which will list the prime broker, if there is one, that is associated with each account.

2. Statutory Basis

Nasdaq believes that the proposal is consistent with Section 6(b) of the Act in general and Section 6(b)(5) of the Act,¹⁶ in particular, which require, among other things, that the Exchange's rules must be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, and, in general, to protect investors and the public interest, and Section 6(b)(8) of the Act,¹⁷ which requires that the Exchange's rules not impose any burden on competition that is not necessary or appropriate.

The Exchange believes that this proposal is consistent with the Act because it is

¹⁶ 15 U.S.C. 78f(b)(6).

¹⁷ 15 U.S.C. 78f(b)(8).

consistent with, and implements, the Allocation Exemption, and is designed to assist the Exchange and its Industry Members in meeting regulatory obligations pursuant to the Plan. In approving the Plan, the SEC noted that the Plan “is necessary and appropriate in the public interest, for the protection of investors and the maintenance of fair and orderly markets, to remove impediments to, and perfect the mechanism of a national market system, or is otherwise in furtherance of the purposes of the Act.”¹⁸ To the extent that this proposal implements the Plan, and applies specific requirements to Industry Members, the Exchange believes that this proposal furthers the objectives of the Plan, as identified by the SEC, and is therefore consistent with the Act.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange notes that the proposed rule changes are consistent with the Allocation Exemption, and are designed to assist the Exchange in meeting its regulatory obligations pursuant to the Plan. The Exchange also notes that the proposed rule changes will apply equally to all Industry Members. In addition, all national securities exchanges and FINRA are proposing this amendment to their Compliance Rules. Therefore, this is not a competitive rule filing and does not impose a burden on competition.

C. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

¹⁸ See Securities Exchange Act Release No. 79318 (November 15, 2016), 81 FR 84696, 84697 (November 23, 2016).

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹⁹ and subparagraph (f)(6) of Rule 19b-4 thereunder.²⁰

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹⁹ 15 U.S.C. 78s(b)(3)(A)(iii).

²⁰ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.

Electronic comments:

- Use the Commission's Internet comment form (<http://www.sec.gov/rules/sro.shtml>); or
- Send an e-mail to rule-comments@sec.gov. Please include File Number SR-NASDAQ-2020-099 on the subject line.

Paper comments:

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street, NE, Washington, DC 20549-1090.

All submissions should refer to File Number SR-NASDAQ-2020-099. This file number should be included on the subject line if e-mail is used. To help the Commission process and review your comments more efficiently, please use only one method. The Commission will post all comments on the Commission's Internet Web site (<http://www.sec.gov/rules/sro.shtml>).

Copies of the submission, all subsequent amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for website viewing and printing in the Commission's Public Reference Room, 100 F Street, NE, Washington, DC 20549, on official business days between the hours of 10:00 a.m. and 3:00 p.m. Copies of the filing also will be available for inspection and copying at the principal office of the Exchange. All comments received will be posted without change; the Commission does not edit personal identifying information from submissions. You should submit only information that you wish to make available publicly.

All submissions should refer to File Number SR-NASDAQ-2020-099 and should be submitted on or before [insert date 21 days from publication in the Federal Register].

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.²¹

J. Matthew DeLesDernier
Assistant Secretary

²¹ 17 CFR 200.30-3(a)(12).

General 7: Consolidated Audit Trail Compliance**Section 1. Consolidated Audit Trail – Definitions**

For purposes of the General 7 Sections:

(a) - (b) No change.

(c) “Allocation” means (1) the placement of shares/contracts into the same account for which an order was originally placed; or (2) the placement of shares/contracts into an account based on allocation instructions (e.g., subaccount allocations, delivery versus payment (“DVP”) allocations).

(d) [(c)] “Allocation Report” means a report made to the Central Repository by an Industry Member that identifies the Firm Designated ID for any account(s), including subaccount(s), to which executed shares/contracts are allocated and provides (1) the security that has been allocated;[,] (2) the identifier of the firm reporting the allocation;[,] (3) the price per share/contract of shares/contracts allocated;[,] (4) the side of shares/contracts allocated;[,] (5) the number of shares/contracts allocated to each account;[,] [and] (6) the time of the allocation; (7) Allocation ID, which is the internal allocation identifier assigned to the allocation event by the Industry Member; (8) trade date; (9) settlement date; (10) IB/correspondent CRD Number (if applicable); (11) FDID of new order(s) (if available in the booking system); (12) allocation instruction time (optional); (12) if account meets the definition of institution under FINRA Rule 4512(c); (13) type of allocation (allocation to a custody account, allocation to a DVP account, step-out, correspondent flip, allocation to a firm owned or controlled account, or other non-reportable transactions (e.g., option exercises, conversions); (14) for DVP allocations, custody broker-dealer clearing number (prime broker) if the custodian is a U.S. broker-dealer, DTCC number if the custodian is a U.S. bank, or a foreign indicator, if the custodian is a foreign entity; and (15) if an allocation was cancelled, a cancel flag indicating that the allocation was cancelled, and a cancel timestamp, which represents the time at which the allocation was cancelled; provided, for the avoidance of doubt, any such Allocation Report shall not be required to be linked to particular orders or executions.

(d) - (j) renumbered as (e) - (k)

(l) “Client Account” means, for the purposes of an Allocation and Allocation Report, any account or subaccount that is not owned or controlled by the Industry Member.

(k) - (pp) renumbered as (m) - (rr)

Section 3. Consolidated Audit Trail - Industry Member Data Reporting

(a) Recording and Reporting Industry Member Data

(1) No change.

(2) Subject to paragraph (3) below, each Industry Member shall record and report to the Central Repository the following, as applicable (“Received Industry Member Data” and collectively with the information referred to in General 7, Section 3(a)(1) “Industry Member Data”) in the manner prescribed by the Operating Committee pursuant to the CAT NMS Plan:

(A) if the order is executed, in whole or in part:

[(i) An Allocation Report;]

(i) [(ii)] SRO-Assigned Market Participant Identifier of the clearing broker [or prime broker], if applicable; and

(ii) [(iii)] CAT-Order-ID of any contra-side order(s);

(B) if the trade is cancelled, a cancelled trade indicator; [and]

(C) - (E) No change.

(F) an Allocation Report any time the Industry Member performs an Allocation to a Client Account, whether or not the Industry Member was the executing broker for the trade.

(3) No change.

(b) - (f) No change.
