3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The Exchange proposes to amend NOM's Pricing Schedule at Options 7, Section 2, Nasdaq Options Market - Fees and Rebates.

Background

Today, NOM assesses certain fees and rebates for execution of contracts on NOM as follows:

Rebates to Add
Liquidity in Penny
Symbols

Broker-Dealer	\$0.50	\$1.25
Firm	\$0.50	\$1.25
Non-NOM Market Maker	\$0.50	\$1.25
NOM Market Maker	\$0.50	\$1.25

Further, Customer⁵ and Professional⁶ Rebates to Add Liquidity in Penny Symbols are paid per the highest tier achieved below. To determine the applicable percentage of total industry customer equity and ETF option average daily volume, unless otherwise stated, the Participant's Penny Symbol and Non-Penny Symbol Customer and/or Professional volume that adds liquidity will be included.

Monthly Volume

Tier 1	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols of up to 0.10% of total industry customer equity and ETF option average daily volume ("ADV") contracts per day in a month
Tier 2	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols above 0.10% of total industry customer equity and ETF option ADV contracts per day in a month

⁵ The term "Customer" or ("C") applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of broker or dealer or for the account of a "Professional" (as that term is defined in Options 1, Section 1(a)(47)). See Options 7, Section 1(a).

⁶ The term "Professional" or ("P") means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a calendar month for its own beneficial account(s) pursuant to Options 1, Section 1(a)(47). All Professional orders shall be appropriately marked by Participants. See Options 7, Section 1(a).

Tier 3	Participant: (a) adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols above 0.20% of total industry customer equity and ETF option ADV contracts per day in a month; or (b) adds Customer and/or Professional liquidity in Penny Symbols and/or Non-Penny Symbols above 0.05% of total industry customer equity and ETF option ADV contracts per day in a month and qualifies for MARS
Tier 4	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols above 0.30% of total industry customer equity and ETF option ADV contracts per day in a month
Tier 5	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols above 0.40% of total industry customer equity and ETF option ADV contracts per day in a month
Tier 6	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols above 0.70% or more of total industry customer equity and ETF option ADV contracts per day in a month, or Participant : (1) adds Customer and/or Professional liquidity in Penny Symbols and/or Non-Penny Symbols of 0.10% or more of total industry customer equity and ETF option ADV contracts per day in a month, and (2) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume in a month or qualifies for MARS (defined below)

Finally, NOM Market Makers Rebates to Add Liquidity in Penny Symbols are paid per the highest tier achieved based on the below 6 tiers.⁷

Monthly Volume

Tier 1	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of up to 0.10% of

⁷ “Total Volume” is defined as Customer, Professional, Firm, Broker-Dealer, Non-NOM Market Maker and NOM Market Maker volume in Penny Symbols and/or Non-Penny Symbols which either adds or removes liquidity on NOM.

	total industry customer equity and ETF option average daily volume (“ADV”) contracts per day in a month
Tier 2	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.10% of total industry customer equity and ETF option ADV contracts per day in a month
Tier 3	Participant: (a) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.20% of total industry customer equity and ETF option ADV contracts per day in a month; or (b)(1) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.15% of total industry customer equity and ETF option ADV contracts per day in a month, (2) transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent (i) 0.50% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market or (ii) 50 million shares or more ADV which adds liquidity in the same month on The Nasdaq Stock Market, and (3) executes 1.5 million shares or more ADV in the same month utilizing the M-ELO order type on The Nasdaq Stock Market
Tier 4	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.60% of total industry customer equity and ETF option ADV contracts per day in a month
Tier 5	Participant: (a) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.00% of total industry customer equity and ETF option ADV contracts per day in a month; or (b) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.40% of total industry customer equity and ETF option ADV contracts per day in a month and transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.40% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market
Tier 6	Participant: (a)(1) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.95% of total industry customer equity and ETF option ADV contracts per day in a month, (2) executes Total Volume of 250,000 or more contracts per day in a month, of which 30,000 or more contracts per day in a month must be removing liquidity, and (3) adds Firm, Broker-Dealer and Non-NOM Market Maker liquidity in Non-Penny Symbols of 10,000 or more contracts per day in a month; or (b)(1)

adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.40% of total industry customer equity and ETF option ADV contracts per day in a month, and (2) executes Total Volume of 250,000 or more contracts per day in a month, of which 15,000 or more contracts per day in a month must be removing liquidity

Proposal

First, NOM proposes to increase the rebate for adding liquidity in penny symbols by NOM Market Makers from \$0.44 to \$0.46 and remove the corresponding note 11 incentive, which states that “NOM Participants that qualify for the Tier 5(b) NOM Market Maker Rebate to Add Liquidity in Penny Symbols and add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.50% of total industry customer equity and ETF option ADV contracts per day in a month, will receive a \$0.46 per contract rebate to add liquidity in Penny Symbols as Market Maker in lieu of the Tier 5 rebate.”

Second, for the NOM Market Maker rebate to add liquidity in penny symbols, NOM proposes to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status from 1.00% to 1.25%. Currently, to achieve Tier 5 status, a Participant must (a) add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.00% of total industry customer equity and ETF option ADV contracts per day in a month; or (b) add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.40% of total industry customer equity and ETF option ADV contracts per day in a month and transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.40% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market.

NOM proposes to change “1.00% of total industry customer equity and ETF option ADV contracts per day in a month” to *1.25% of total industry customer equity and ETF option ADV contracts per day in a month*.

Last, NOM proposes to amend the note 6 incentive to allow Participants that qualify for either the Tier 5 or 6 NOM Market Maker Rebate to Add Liquidity in Penny Symbols to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols. The Exchange believes that these above changes will attract a greater amount of order flow to NOM to the benefit of other Participants who may interact with that order flow.

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁹ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its

⁹ 15 U.S.C. 78f(b)(4) and (5).

broader forms that are most important to investors and listed companies.”¹⁰

Likewise, in NetCoalition v. Securities and Exchange Commission¹¹ (“NetCoalition”) the D.C. Circuit upheld the Commission’s use of a market-based approach in evaluating the fairness of market data fees against a challenge claiming that Congress mandated a cost-based approach.¹² As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’ play a role in determining the market data . . . to be made available to investors and at what cost.”¹³

Further, “[n]o one disputes that competition for order flow is ‘fierce.’ ... As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’”¹⁴ Although the court and the SEC were discussing the cash equities markets, the Exchange believes that these views apply with equal force to the options markets.

The Exchange’s proposal to increase the Tier 5 rebate for adding liquidity in penny symbols by NOM Market Makers and remove the corresponding note 11 incentive

is reasonable because it will attract additional order flow to NOM and all NOM Market Makers would be eligible to receive the \$0.46 per contract rebate to add liquidity in Penny Symbols. Further, the proposal aligns with the goals of the note 6 incentive, which would allow Participants that qualify for either the Tier 5 or 6 NOM Market Maker Rebate to Add Liquidity in Penny Symbols to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols. The Exchange's proposal to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status for the NOM Market Maker rebate to add liquidity in penny symbols is reasonable because of the corresponding *increase* to the rebate for adding liquidity in penny symbols by NOM Market Makers. Additionally, the Exchange's proposal to amend the note 6 incentive for Participants is reasonable because it would allow Participants that qualify for the Tier 5 NOM Market Maker Rebate to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols which may attract additional order flow to the Exchange. To the extent NOM Market Maker Participants continue to add liquidity in penny symbols on NOM to meet the proposed volume threshold to receive the incentive, the Exchange believes that its proposal will benefit all market participants who will be able to interact with the additional liquidity.

The Exchange's proposal to increase the rebate for adding liquidity in penny symbols by all NOM Market Makers and remove the corresponding note 11 incentive is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers the applicable penny symbol rebate for adding liquidity provided they meet the requirements for the rebate. The Exchange's proposal to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status for the

NOM Market Maker rebate to add liquidity in penny symbols is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers with the applicable monthly percentage volume in determining whether they meet the requirements for the rebate. The Exchange's proposal to amend the note 6 incentive for Participants is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers the applicable penny symbol rebate for adding liquidity provided they meet the requirements for the rebate.

The Exchange's proposed differentiation between NOM Market Makers and other market participants is equitable and not unfairly discriminatory because it recognizes the differing contributions of NOM Market Makers. NOM Market Makers have obligations to the market and regulatory requirements which do not apply to other market participants.¹⁵ A NOM Market Maker has the obligation, for example, to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Inter-market Competition

The proposal does not impose an undue burden on inter-market competition. The Exchange believes its proposal remains competitive with other options markets. The

¹⁵ See NOM Options 2, Sections 4 and 5.

Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive with other exchanges. Because competitors are free to modify their own fees and rebates in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee and rebate changes in this market may impose any burden on competition is extremely limited.

Intra-market Competition

The Exchange's proposal to (1) increase the rebate for adding liquidity in penny symbols by NOM Market Makers and remove the corresponding note 11 incentive (2) increase the applicable monthly percentage volume for Participants to achieve Tier 5 status, and (3) amend the note 6 incentive for Participants does not impose an undue burden on competition. Offering these discounts to NOM Market Makers does not impose an undue burden on competition because NOM Market Makers have obligations to the market and regulatory requirements which do not apply to other market participants.¹⁶ A NOM Market Maker has the obligation, for example, to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The proposed differentiation as between NOM Market Makers and other market participants recognizes the differing

¹⁶ See NOM Options 2, Sections 4 and 5.

contributions of NOM Market Makers. For the above reasons, the Exchange believes that NOM Market Makers are entitled to discounted fees, provided they qualify for the discount.

5. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

6. Extension of Time Period for Commission Action

Not applicable.

7. Basis for Summary Effectiveness Pursuant to Section 19(b)(3) or for Accelerated Effectiveness Pursuant to Section 19(b)(2)

Pursuant to Section 19(b)(3)(A)(ii) of the Act,¹⁷ the Exchange has designated this proposal as establishing or changing a due, fee, or other charge imposed by the self-regulatory organization on any person, whether or not the person is a member of the self-regulatory organization, which renders the proposed rule change effective upon filing.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend NOM's Pricing Schedule at Options 7, Section 2, Nasdaq Options Market - Fees and Rebates.

Background

Today, NOM assesses certain fees and rebates for execution of contracts on NOM as follows:

⁴ The term "Options Participant" or "Participant" mean a firm, or organization that is registered with the Exchange pursuant to Options 2A of the NOM Rules for purposes of participating in options trading on NOM as a "Nasdaq Options Order Entry Firm" or "Nasdaq Options Market Maker". ⁵ The term “Customer” or (“C”) applies to any transaction that is identified by a Participant for clearing in the Customer range at The Options Clearing Corporation (“OCC”) which is not for the account of broker or dealer or for the account of a “Professional” (as that term is defined in Options 1, Section 1(a)(47)). See Options 7, Section 1(a).

⁶ The term “Professional” or (“P”) means any person or entity that (i) is not a broker or dealer in securities, and (ii) places more than 390 orders in listed options per day on average during a

industry customer equity and ETF option average daily volume, unless otherwise stated, the Participant's Penny Symbol and Non-Penny Symbol Customer and/or Professional volume that adds liquidity will be included.

Monthly Volume

Tier 1	Participant adds Customer, Professional, Firm, Non-NOM Market Maker and/or Broker-Dealer liquidity in Penny Symbols and/or Non-Penny Symbols of up to 0.10% of total industry customer equity and ETF option average daily volume ("ADV") contracts per day in a month

Customer and/or Professional liquidity in Penny Symbols and/or Non-Penny Symbols of 0.10% or more of total industry customer equity and ETF option ADV contracts per day in a month, and (2) has added liquidity in all securities through one or more of its Nasdaq Market Center MPIDs that represent 1.00% or more of Consolidated Volume in a month or qualifies for MARS (defined below)

Finally, NOM Market Makers Rebates to Add Liquidity in Penny Symbols are paid per the highest tier achieved based on the below 6 tiers.⁷

Monthly Volume

Tier 1	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of up to 0.10% of total industry customer equity and ETF option average daily volume (“ADV”) contracts per day in a month
Tier 2	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.10% of total industry customer equity and ETF option ADV contracts per day in a month
Tier 3	Participant: (a) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.20% of total industry customer equity and ETF option ADV contracts per day in a month; or (b)(1) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.15% of total industry customer equity and ETF option ADV contracts per day in a month, (2) transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent (i) 0.50% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market or (ii) 50 million shares or more ADV which adds liquidity in the same month on The Nasdaq Stock Market, and (3) executes 1.5 million shares or more ADV in the same month utilizing the M-ELO order type on The Nasdaq Stock Market
Tier 4	Participant adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.60% of total industry customer equity and ETF option ADV contracts per day in a month

⁷ “Total Volume” is defined as Customer, Professional, Firm, Broker-Dealer, Non-NOM Market Maker and NOM Market Maker volume in Penny Symbols and/or Non-Penny Symbols which either adds or removes liquidity on NOM.

- Tier 5 Participant: (a) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.00% of total industry customer equity and ETF option ADV contracts per day in a month; **or** (b) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.40% of total industry customer equity and ETF option ADV contracts per day in a month **and** transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.40% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market
- Tier 6 Participant: (a)(1) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.95% of total industry customer equity and ETF option ADV contracts per day in a month, (2) executes Total Volume of 250,000 or more contracts per day in a month, of which 30,000 or more contracts per day in a month must be removing liquidity, and (3) adds Firm, Broker-Dealer and Non-NOM Market Maker liquidity in Non-Penny Symbols of 10,000 or more contracts per day in a month; **or** (b)(1) adds NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.40% of total industry customer equity and ETF option ADV contracts per day in a month, and (2) executes Total Volume of 250,000 or more contracts per day in a month, of which 15,000 or more contracts per day in a month must be removing liquidity

Proposal

First, NOM proposes to increase the rebate for adding liquidity in penny symbols by NOM Market Makers from \$0.44 to \$0.46 and remove the corresponding note 11 incentive, which states that “NOM Participants that qualify for the Tier 5(b) NOM Market Maker Rebate to Add Liquidity in Penny Symbols and add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols of above 0.50% of total industry customer equity and ETF option ADV contracts per day in a month, will receive a \$0.46 per contract rebate to add liquidity in Penny Symbols as Market Maker in lieu of the Tier 5 rebate.”

Second, for the NOM Market Maker rebate to add liquidity in penny symbols, NOM proposes to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status from 1.00% to 1.25%. Currently, to achieve Tier 5 status, a Participant must (a) add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 1.00% of total industry customer equity and ETF option ADV contracts per day in a month; or (b) add NOM Market Maker liquidity in Penny Symbols and/or Non-Penny Symbols above 0.40% of total industry customer equity and ETF option ADV contracts per day in a month and transacts in all securities through one or more of its Nasdaq Market Center MPIDs that represent 0.40% or more of Consolidated Volume (“CV”) which adds liquidity in the same month on The Nasdaq Stock Market. NOM proposes to change “1.00% of total industry customer equity and ETF option ADV contracts per day in a month” to *1.25% of total industry customer equity and ETF option ADV contracts per day in a month*.

Last, NOM proposes to amend the note 6 incentive to allow Participants that qualify for either the Tier 5 or 6 NOM Market Maker Rebate to Add Liquidity in Penny Symbols to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols. The Exchange believes that these above changes will attract a greater amount of order flow to NOM to the benefit of other Participants who may interact with that order flow.

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,⁸ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,⁹ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”¹⁰

Likewise, in NetCoalition v. Securities and Exchange Commission¹¹ (“NetCoalition”) the D.C. Circuit upheld the Commission’s use of a market-based approach in evaluating the fairness of market data fees against a challenge claiming that Congress mandated a cost-based approach.¹² As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’

play a role in determining the market data . . . to be made available to investors and at what cost.”¹³

Further, “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; [and] ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers’”¹⁴ Although the court and the SEC were discussing the cash equities markets, the Exchange believes that these views apply with equal force to the options markets.

The Exchange’s proposal to increase the Tier 5 rebate for adding liquidity in penny symbols by NOM Market Makers and remove the corresponding note 11 incentive is reasonable because it will attract additional order flow to NOM and all NOM Market Makers would be eligible to receive the \$0.46 per contract rebate to add liquidity in Penny Symbols. Further, the proposal aligns with the goals of the note 6 incentive, which would allow Participants that qualify for either the Tier 5 or 6 NOM Market Maker Rebate to Add Liquidity in Penny Symbols to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols. The Exchange’s proposal to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status for the NOM Market Maker rebate to add liquidity in penny symbols is reasonable because of the corresponding *increase* to the rebate for adding liquidity in penny symbols

by NOM Market Makers. Additionally, the Exchange's proposal to amend the note 6 incentive for Participants is reasonable because it would allow Participants that qualify for the Tier 5 NOM Market Maker Rebate to receive a \$0.86 per contract NOM Market Maker Rebate to Add Liquidity in Non-Penny Symbols which may attract additional order flow to the Exchange. To the extent NOM Market Maker Participants continue to add liquidity in penny symbols on NOM to meet the proposed volume threshold to receive the incentive, the Exchange believes that its proposal will benefit all market participants who will be able to interact with the additional liquidity.

The Exchange's proposal to increase the rebate for adding liquidity in penny symbols by all NOM Market Makers and remove the corresponding note 11 incentive is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers the applicable penny symbol rebate for adding liquidity provided they meet the requirements for the rebate. The Exchange's proposal to increase the applicable monthly percentage volume for Participants to achieve Tier 5 status for the NOM Market Maker rebate to add liquidity in penny symbols is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers with the applicable monthly percentage volume in determining whether they meet the requirements for the rebate. The Exchange's proposal to amend the note 6 incentive for Participants is equitable and not unfairly discriminatory because the Exchange will uniformly assess all NOM Market Makers the applicable penny symbol rebate for adding liquidity provided they meet the requirements for the rebate.

The Exchange's proposed differentiation between NOM Market Makers and other market participants is equitable and not unfairly discriminatory because it recognizes the

differing contributions of NOM Market Makers. NOM Market Makers have obligations to the market and regulatory requirements which do not apply to other market participants.¹⁵ A NOM Market Maker has the obligation, for example, to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act.

Inter-market Competition

The proposal does not impose an undue burden on inter-market competition. The Exchange believes its proposal remains competitive with other options markets. The Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees and rebates to remain competitive with other exchanges. Because competitors are free to modify their own fees and rebates in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee and rebate changes in this market may impose any burden on competition is extremely limited.

¹⁵ See NOM Options 2, Sections 4 and 5.

Intra-market Competition

The Exchange's proposal to (1) increase the rebate for adding liquidity in penny symbols by NOM Market Makers and remove the corresponding note 11 incentive (2) increase the applicable monthly percentage volume for Participants to achieve Tier 5 status, and (3) amend the note 6 incentive for Participants does not impose an undue burden on competition. Offering these discounts to NOM Market Makers does not impose an undue burden on competition because NOM Market Makers have obligations to the market and regulatory requirements which do not apply to other market participants.¹⁶ A NOM Market Maker has the obligation, for example, to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The proposed differentiation as between NOM Market Makers and other market participants recognizes the differing contributions of NOM Market Makers. For the above reasons, the Exchange believes that NOM Market Makers are entitled to discounted fees, provided they qualify for the discount.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁷
