Such partial amendment shall be clearly identified and marked to show deletions and additions.

1. Text of the Proposed Rule Change

(a) Nasdaq PHLX LLC (“Phlx” or “Exchange”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)¹ and Rule 19b-4 thereunder,² is filing with the Securities and Exchange Commission (“SEC” or “Commission”) a proposal to amend the fees for Nasdaq 100 Index options in the Exchange’s Pricing Schedule at Options 7, Section 5A.

While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on December 1, 2023.

A notice of the proposed rule change for publication in the Federal Register is attached as Exhibit 1. The text of the proposed rule change is attached as Exhibit 5.

(b) Not applicable.

(c) Not applicable.

2. Procedures of the Self-Regulatory Organization

The proposed rule change was approved by senior management of the Exchange pursuant to authority delegated by the Board of Directors (the “Board”). Exchange staff will advise the Board of any action taken pursuant to delegated authority. No other action is necessary for the filing of the rule change.

3. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

a. Purpose

The purpose of the proposed rule change is to amend the fees for NDX³ and NDXP.⁴ As set forth in Options 7, Section 5A, the Exchange currently charges all Non-Customer⁵ orders in NDX and NDXP a \$0.75 per contract transaction fee. Customer⁶ orders receive free executions in NDX and NDXP today. These transaction fees apply to electronic simple and complex executions as well as floor transactions.

The Exchange now proposes to begin assessing Customer NDX and NDXP orders a \$0.25 per contract transaction fee. The Exchange notes that the proposed fee amount is in line with customer transaction fees assessed on other index products.⁷ The Exchange also proposes to assess a surcharge of \$0.50 per contract to all Non-Customer complex executions in NDX and NDXP, and a surcharge of 0.25 per contract to all Customer complex executions in NDX and NDXP.⁸ The Exchange notes that the proposed

³ NDX represents A.M.-settled options on the full value of the Nasdaq 100 Index traded under the symbol NDX.

⁴ NDXP represents P.M.-settled options on the full value of the Nasdaq 100 Index traded under the symbol NDXP.

⁵ The term "Non-Customer" applies to transactions for the accounts of Lead Market Makers, Market Makers, Firms, Professionals, Broker-Dealers and JBOs.

⁶ The term "Customer" applies to any transaction that is identified by a member or member organization for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of a broker or dealer or for the account of a "Professional" (as that term is defined in Options 1, Section 1(b)(45)).

⁷ For example, Cboe Options ("Cboe") currently assesses a \$0.25 per contract customer transaction fee for MXEA and MXEF options, \$0.35 per contract for OEX and XEO options, and \$0.36 per contract (if premium < \$1.00) or \$0.45 per contract (if premium >= \$1.00) for SPX and SPESG options. See Cboe Fees Schedule.

⁸ See proposed notes 5 and 6 of Options 7, Section 5.A.

surcharge amounts are within the range of various surcharges assessed at another options exchange.⁹

b. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹¹ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes it is reasonable to begin assessing a \$0.25 per contract transaction fee to all Customer orders in NDX and NDXP, a \$0.25 per contract complex surcharge to Customer complex orders in NDX and NDXP, and a \$0.50 per contract complex surcharge to Non-Customer complex orders in NDX and NDXP because the proposed pricing reflects the proprietary nature of this product. Similar to other proprietary products like options overlying the Nasdaq 100 Micro Index (“XND”), the Exchange seeks to recoup the operational costs of listing proprietary products.¹² Also, pricing by symbol is a common practice on many U.S. options exchanges as a means to incentivize order flow to be sent to an exchange for execution in particular products.

⁹ For example, Cboe currently assesses customers a \$0.25 per contract exotic surcharge and a \$0.21 per contract execution surcharge in SPX and SPESG options. Cboe also assesses non-customers a \$0.45 per contract license surcharge in RUT, and LEAPS surcharge fees in SPX ranging from \$1.00 to \$2.50 per contract, according to time-to-expiration. See Cboe Fees Schedule.

¹⁰ 15 U.S.C. 78f(b).

¹¹ 15 U.S.C. 78f(b)(4) and (5).

¹² By way of example, in analyzing an obvious error, the Exchange would have additional data points available in establishing a theoretical price for a multiply listed option as compared to a proprietary product, which requires additional analysis and administrative time to comply with Exchange rules to resolve an obvious error.

Other options exchanges price by symbol.¹³ Further, the Exchange notes that market participants are offered different ways to gain exposure to the Nasdaq 100 Index, whether through the Exchange's proprietary products like options overlying NDX, NDPX, or XND, or separately through multi-listed options overlying Invesco QQQ Trust ("QQQ").¹⁴ Offering such products provides market participants with a variety of choices in selecting the product they desire to utilize in order to gain exposure to the Nasdaq 100 Index. When exchanges are able to recoup costs associated with offering proprietary products, it incentivizes growth and competition for the innovation of additional products.

The Exchange further believes that the proposed pricing described above is reasonable because the proposal is designed to update fees for the Exchange's services to reflect their current value—rather than their value when the Exchange last updated NDX and NDXP pricing five years ago¹⁵—based on the Exchange's ability to deliver value to its customers by offering proprietary products on its market like NDX and NDXP.

While NDX and NDXP pricing is increasing for all market participants under this proposal, the Exchange believes that the proposal is reasonable and would continue to incentivize market participants to transact in NDX and NDXP, and especially in Customer NDX and NDXP orders because Customers would continue to be charged at a lower rate for NDX and NDXP than Non-Customers. As a result, the Exchange believes

¹³ See supra note 7.

¹⁴ QQQ is an exchange-traded fund based on the same Nasdaq 100 Index as NDX, NDXP, and XND.

¹⁵ The Exchange has not amended NDX and NDXP transaction fees since 2018, so the fees have remained at \$0.75 per contract for Non-Customers and \$0.00 for Priority Customers during this time. See Securities Exchange Act Release No. 82499 (January 12, 2018), 83 FR 2834 (January 19, 2018) (SR-Phlx-2018-02).

that the proposed pricing is structured in a way that continues to encourage market participants, especially Customers, to transact in NDX and NDXP on Phlx. An increase in Customer order flow would benefit all market participants through quality of order interaction and increased trading opportunities. As noted above, the proposed fee and surcharge amounts are in line with fees and surcharges assessed on other products at another options exchange.¹⁶

The Exchange's proposal to assess a \$0.25 per contract transaction fee to Customer orders in NDX and NDXP is equitable and not unfairly discriminatory it will apply uniformly to all similarly situated market participants. The Exchange believes it is equitable and not unfairly discriminatory to continue charging Customers a lower transaction fee for NDX and NDXP orders because Customer orders bring valuable liquidity to the market by providing more trading opportunities, which, in turn, attracts Market Makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow to the benefit of all market participants.

The Exchange also believes that it is equitable and not unfairly discriminatory to assess the \$0.25 per contract surcharge to Customer complex orders in NDX and NDXP and the \$0.50 per contract surcharge to Non-Customer complex orders in NDX and NDXP because the proposed surcharges will apply uniformly to all similarly situated participants. The Exchange believes it is equitable and not unfairly discriminatory to assess a lower complex surcharge to Customers than Non-Customers as the Exchange has

¹⁶ See supra notes 7 and 9.

historically provided more favorable pricing to Customers in its Pricing Schedule.¹⁷ In addition, Customer orders bring valuable liquidity to the market by providing more trading opportunities. This, in turn, attracts Market Maker activity, which facilitates tighter spreads, which may cause an additional corresponding increase in order flow to the benefit of all market participants.

4. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. As noted above, market participants are offered an opportunity to transact in NDX, NDXP, or XND, or separately execute options overlying QQQ. Offering these products provides market participants with a variety of choices in selecting the product they desire to use to gain exposure to the Nasdaq 100 Index. Furthermore, the proposed fee amounts are in line with customer transaction fees and surcharges assessed on other products at another options exchange.¹⁸

Further, the Exchange does not believe that the proposed changes will impose an undue burden on intra-market competition because Customers will continue to be assessed lower fees in NDX and NDXP than Non-Customers, which is in line with how the Exchange historically assessed fees. As discussed above, Customer order flow enhances liquidity on the Exchange for the benefit of all market participants.

¹⁷ For example, the Exchange offers a Customer Rebate Program in Options 7, Section 2.

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. December __, 2023

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change to Amend the Fees for Options on the Nasdaq 100 Index in the Exchange's Pricing Schedule at Options 7

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act")¹, and Rule 19b-4 thereunder,² notice is hereby given that on November 30, 2023, Nasdaq PHLX LLC ("Phlx" or "Exchange") filed with the Securities and Exchange Commission ("SEC" or "Commission") the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend the fees for Nasdaq 100 Index options in the Exchange's Pricing Schedule at Options 7, Section 5A. While these amendments are effective upon filing, the Exchange has designated the proposed amendments to be operative on December 1, 2023.

The text of the proposed rule change is available on the Exchange's Website at <https://listingcenter.nasdaq.com/rulebook/phlx/rules>, at the principal office of the Exchange, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the fees for NDX³ and NDXP.⁴ As set forth in Options 7, Section 5A, the Exchange currently charges all Non-Customer⁵ orders in NDX and NDXP a \$0.75 per contract transaction fee. Customer⁶ orders receive free executions in NDX and NDXP today. These transaction fees apply to electronic simple and complex executions as well as floor transactions.

The Exchange now proposes to begin assessing Customer NDX and NDXP orders a \$0.25 per contract transaction fee. The Exchange notes that the proposed fee amount is in line with customer transaction fees assessed on other index products.⁷ The Exchange

³ NDX represents A.M.-settled options on the full value of the Nasdaq 100 Index traded under the symbol NDX.

⁴ NDXP represents P.M.-settled options on the full value of the Nasdaq 100 Index traded under the symbol NDXP.

⁵ The term "Non-Customer" applies to transactions for the accounts of Lead Market Makers, Market Makers, Firms, Professionals, Broker-Dealers and JBOs.

⁶ The term "Customer" applies to any transaction that is identified by a member or member organization for clearing in the Customer range at The Options Clearing Corporation ("OCC") which is not for the account of a broker or dealer or for the account of a "Professional" (as that term is defined in Options 1, Section 1(b)(45)).

⁷ For example, Cboe Options ("Cboe") currently assesses a \$0.25 per contract customer transaction fee for MXEA and MXEF options, \$0.35 per contract for OEX and XEO options, and \$0.36 per

also proposes to assess a surcharge of \$0.50 per contract to all Non-Customer complex executions in NDX and NDXP, and a surcharge of 0.25 per contract to all Customer complex executions in NDX and NDXP.⁸ The Exchange notes that the proposed surcharge amounts are within the range of various surcharges assessed at another options exchange.⁹

2. Statutory Basis

The Exchange believes that its proposal is consistent with Section 6(b) of the Act,¹⁰ in general, and furthers the objectives of Sections 6(b)(4) and 6(b)(5) of the Act,¹¹ in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using any facility, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Exchange believes it is reasonable to begin assessing a \$0.25 per contract transaction fee to all Customer orders in NDX and NDXP, a \$0.25 per contract complex surcharge to Customer complex orders in NDX and NDXP, and a \$0.50 per contract complex surcharge to Non-Customer complex orders in NDX and NDXP because the proposed pricing reflects the proprietary nature of this product. ⁹ For example, Cboe currently assesses customers a \$0.25 per contract exotic surcharge and a \$0.21 per contract execution surcharge in SPX and SPESG options. Cboe also assesses non-customers a \$0.45 per contract license surcharge in RUT, and LEAPS surcharge fees in SPX ranging from \$1.00 to \$2.50 per contract, according to time-to-expiration. See Cboe Fees Schedule.

Exchange seeks to recoup the operational costs of listing proprietary products.¹² Also, pricing by symbol is a common practice on many U.S. options exchanges as a means to incentivize order flow to be sent to an exchange for execution in particular products. Other options exchanges price by symbol.¹³ Further, the Exchange notes that market participants are offered different ways to gain exposure to the Nasdaq 100 Index, whether through the Exchange's proprietary products like options overlying NDX, NDPX, or XND, or separately through multi-listed options overlying Invesco QQQ Trust ("QQQ").¹⁴ Offering such products provides market participants with a variety of choices in selecting the product they desire to utilize in order to gain exposure to the Nasdaq 100 Index. When exchanges are able to recoup costs associated with offering proprietary products, it incentivizes growth and competition for the innovation of additional products.

The Exchange further believes that the proposed pricing described above is reasonable because the proposal is designed to update fees for the Exchange's services to reflect their current value—rather than their value when the Exchange last updated NDX and NDXP pricing five years ago¹⁵—based on the Exchange's ability to deliver value to its customers by offering proprietary products on its market like NDX and NDXP.

¹² By way of example, in analyzing an obvious error, the Exchange would have additional data points available in establishing a theoretical price for a multiply listed option as compared to a proprietary product, which requires additional analysis and administrative time to comply with Exchange rules to resolve an obvious error.

¹³ See supra note 7.

¹⁴ QQQ is an exchange-traded fund based on the same Nasdaq 100 Index as NDX, NDXP, and XND.

¹⁵ The Exchange has not amended NDX and NDXP transaction fees since 2018, so the fees have remained at \$0.75 per contract for Non-Customers and \$0.00 for Priority Customers during this time. See Securities Exchange Act Release No. 82499 (January 12, 2018), 83 FR 2834 (January 19, 2018) (SR-Phlx-2018-02).

While NDX and NDXP pricing is increasing for all market participants under this proposal, the Exchange believes that the proposal is reasonable and would continue to incentivize market participants to transact in NDX and NDXP, and especially in Customer NDX and NDXP orders because Customers would continue to be charged at a lower rate for NDX and NDXP than Non-Customers. As a result, the Exchange believes that the proposed pricing is structured in a way that continues to encourage market participants, especially Customers, to transact in NDX and NDXP on Phlx. An increase in Customer order flow would benefit all market participants through quality of order interaction and increased trading opportunities. As noted above, the proposed fee and surcharge amounts are in line with fees and surcharges assessed on other products at another options exchange.¹⁶

The Exchange's proposal to assess a \$0.25 per contract transaction fee to Customer orders in NDX and NDXP is equitable and not unfairly discriminatory it will apply uniformly to all similarly situated market participants. The Exchange believes it is equitable and not unfairly discriminatory to continue charging Customers a lower transaction fee for NDX and NDXP orders because Customer orders bring valuable liquidity to the market by providing more trading opportunities, which, in turn, attracts Market Makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow to the benefit of all market participants.

The Exchange also believes that it is equitable and not unfairly discriminatory to assess the \$0.25 per contract surcharge to Customer complex orders in NDX and NDXP

¹⁶ See supra notes 7 and 9.

and the \$0.50 per contract surcharge to Non-Customer complex orders in NDX and NDXP because the proposed surcharges will apply uniformly to all similarly situated participants. The Exchange believes it is equitable and not unfairly discriminatory to assess a lower complex surcharge to Customers than Non-Customers as the Exchange has historically provided more favorable pricing to Customers in its Pricing Schedule.¹⁷ In addition, Customer orders bring valuable liquidity to the market by providing more trading opportunities. This, in turn, attracts Market Maker activity, which facilitates tighter spreads, which may cause an additional corresponding increase in order flow to the benefit of all market participants.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. As noted above, market participants are offered an opportunity to transact in NDX, NDXP, or XND, or separately execute options overlying QQQ. Offering these products provides market participants with a variety of choices in selecting the product they desire to use to gain exposure to the Nasdaq 100 Index. Furthermore, the proposed fee amounts are in line with customer transaction fees and surcharges assessed on other products at another options exchange.¹⁸

¹⁷ For example, the Exchange offers a Customer Rebate Program in Options 7, Section 2.

¹⁸ See supra notes 7 and 9.

Further, the Exchange does not believe that the proposed changes will impose an undue burden on intra-market competition because Customers will continue to be assessed lower fees in NDX and NDXP than Non-Customers, which is in line with how the Exchange historically assessed fees. As discussed above, Customer order flow enhances liquidity on the Exchange for the benefit of all market participants.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.¹⁹

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:
